Argument David Hitchcock, 2017-04-06 This book brings together in one place David Hitchcock's most significant published articles on reasoning and argument. In seven new chapters he updates his thinking in the light of subsequent scholarship. Collectively the papers articulate a distinctive position in the philosophy of argumentation. Among other things the author develops an account of material consequence that permits evaluation of inferences without problematic postulation of unstated premises; updates his recursive definition of argument that accommodates chaining and embedding of arguments and allows any type of illocutionary act to be a conclusion; advances a general theory of relevance; provides comprehensive frameworks for evaluating inferences in reasoning by analogy; means end reasoning and appeals to considerations or criteria; argues that none of the forms of arguing ad hominem is a fallacy; describes proven methods of teaching critical thinking effectively.

Linkage Power Europe Zhang Xiaotong, 2023-04-20 This book looks at the history of the EU's trade negotiations with China from 1975 to 2019 from a distinctive perspective: the EU as a linkage power. The author explains how the EU through linkage strategies speaks with one voice, overcomes its weakness in military capabilities and translates its non-military capabilities into advantages and influences in some specific policy areas. The book systematically traces the European negotiators' tactics in managing the EU's trade relations with China. It's the first time that the history of EU-China trade negotiations is presented to the public by a seasoned trade negotiator. The author, combining the identities of a negotiator and a scholar, gives a panoramic view of EU-China trade relations from 1975 when the European Economic Community established diplomatic relations with China to 2019 when the Juncker Commission leaves office. This book will appeal to policymakers, think tankers, professors and students as well as anyone who is interested in trade policies and negotiations in the EU and China.
