Practical Manual Pharmacognoay:

Laboratory Manual of Pharmacognosy Dr. Remeth J. Dias ,Mr. Vijay D. Havaladar,Dr. V. N. Jagtap,Ms. Tasleem S. Kureshi,2023-09-28 We are very pleased to put forth the revised edition of Laboratory Manual of Pharmacognosy We have incorporated all the suggestions modified it to make it easier student friendly and relevant in terms of achieving curriculum outcome We are very much thankful to all the learned teachers who have given their feedback whole heartedly We have even incorporated the changes in this manual based on the feedback given by the teachers from all the institutes Now we believe that the manual has been fulfilling the aspirations of pharmacognosy teachers and students too This manual is prepared as per PCI Education Regulations 2020 for Diploma Course in Pharmacy Each experiment is arranged sequentially such as aim practical significance relevant professional competencies relevant course outcomes competencies and skills practical outcomes relevant affective domain related outcomes minimum theoretical background requirements contents related questions and assessment scheme This manual is a sincere effort to improve the practical skills of students so that every student will understand the objective of each experiment and perform their practical s easily Theory of each experiment is given in all twenty eight experiments making the manual more interesting The manual also focuses on the extra features in morphological characters of certain crude drugs that will be helpful in identifying various varieties of crude drugs We acknowledge the help and co operation extended by various persons in bringing out this manual We are highly indebted to the authors of various books and articles mentioned in bibliography which became a major source of information for writing this manual We also thank the publishers designers and printers who graciously worked hard to publish this manual in time

Practical Handbook of Pharmacognosy for M.Pharm Dr Amit Kumar Verma, Ms Surabhi Shakya,2023-12-27 The practical handbook is intended to introduce the practical of Pharmacognosy for the students of M Pharm The purpose of this practical book is to clearly explain the principle and procedure of the associated practical which are designed according to the syllabus of Pharmacy Council of India The practical included in the book is associated with the subjects of Herbal Cosmetics Medicinal Plant Biotechnology Modern Pharmaceutical Analytical Techniques and Phytochemistry associated with the code MPG 104T and MPG 105T Description of each and every practical and its procedure mention in step by step manner which is easy to understand and perfectly perform The book mention the preparation of various cosmetic formulations like face pack face scrub hair dye vanishing cream dusting powder herbal hair oil and many more including their evaluation methods the analysis of sample by Infrared spectroscopy and UV Vis spectroscopy like after the extraction of oil and its analytical evaluation by IR spectroscopy gives the idea about the phytoconstituents present in sample the extraction of DNA from the plant sample and tissue culture technique The objective of each practical is precisely related to the objectives as mention in the syllabus The support and encouragement from many people made the possible ways for the completion of this book The suggestions consideration or comment will be valuable and greatly acknowledge as they will surely help in future

Laboratory Manual of Pharmacognosy and Phytochemistry I Mr. Vijay D. Havaladar, Mrs. Poonam Nilesh

Chougule, Dr. Ashish Pagariya, Mrs. Smita P. Patil, 2024-02-16 We are very pleased to put forth the Laboratory Manual of Pharmacognosy and Phytochemistry I. This manual is prepared as per PCI B Pharm course regulations 2014 and is divided into four sections: i.e. detection of crude drugs with morphology, histology, powder characteristics, isolation and detection of phyto constituents, isolation of phyto constituents by chromatography techniques, analysis of crude drugs by chemical tests. The traditional as well as modern methods used for identification of crude drugs, isolation methods of phyto constituents and their detection of all the experiments are included in this manual. This manual is designed for outcome based education and each experiment is arranged in a uniform way such as practical significance, practical outcomes, PrOs and its mapping with course outcomes, theory resources used, procedure, precautions, observations, result, conclusion, references and synopsis questions. Each experiment offers an opportunity to perform practical work allowing students to gain proficiency in effectively managing equipment, handling glassware, chemicals and staining agents, reagents and writing conclusion. In addition, questions are provided at the end of the experiments to enhance students' knowledge which will be beneficial for them as they pursue higher studies. During the laboratory period, you will have to multitask while you are doing experiment. It is essential to document properly what you do and what you observe while doing the practical. Always plan your work ahead and think about what you are doing, why you are doing it, what is happening and what you can conclude from your experiment. We acknowledge the help and co-operation extended by various persons in bringing out this manual. We are highly indebted to the authors of various books and articles mentioned in the reference which became a major source of information for writing this manual. We also thank the publishers, designers and printers who graciously worked hard to publish this manual in time. We hope that this manual will assist students in understanding concepts, principles and performing procedures. We wish you all the best.
