Teaching Drama in Primary and Secondary Schools

Michael Fleming, 2013-12-19 This book will be of major interest to student teachers teachers lecturers and researchers It provides a case for an integrated approach to the teaching of drama in primary and secondary schools that will help practitioners develop a theoretical rationale for their work It also offers practical examples of lesson plans and schemes of work designed to give pupils a broad and balanced experience of drama These are presented within a framework that argues for an integration of content and form means and ends and internal and external experience Whereas the author's previous work argued for an inclusive approach that reconciled polarized views about performance drama and improvisation this book shows how those activities can be related to each other in practice in an integrated curriculum Teaching Postdramatic

Theatre Glenn D'Cruz, 2018-04-06 This book explores the concept and vocabulary of postdramatic theatre from a pedagogical perspective It identifies some of the major anxieties and paradoxes generated by teaching postdramatic theatre through practice with reference to the aesthetic cultural and institutional pressures that shape teaching practices It also presents a series of case studies that identify the pedagogical fault lines that expose the power relations inherent in teaching with a focus on the higher education sector as opposed to actor training institutions It uses auto ethnography performance analysis and critical theory to assist university teachers involved in directing theatre productions to deepen their understanding of the concept of postdramatic theatre **The Play of Antichrist** John Wright, 1967 A Complete Guide to Rubrics Audrey M.

Quinlan, 2012 This book takes a developmental perspective at the use of scoring rubrics to assess student work Citing developmental characteristics of each age the author presents examples and adaptations of assessment rubrics on a variety of subjects for teachers from kindergarten through adult college After a presentation of foundation information on rubrics separate chapters are devoted to each grade level from primary through adult Written so that each chapter can be addressed independently the book provides additional chapters devoted to assessing technological topics and using rubrics with students with special needs The final chapters provide practical information to help teachers to create their own rubrics and to covert rubric scores to letter grades An updated annotated listing of recommended rubric websites is included **The**

Politics of Interweaving Performance Cultures Erika Fischer-Lichte, Torsten Jost, Saskya Iris Jain, 2014-01-10 This book provides a timely intervention in the fields of performance studies and theatre history and to larger issues of global cultural exchange The authors offer a provocative argument for rethinking the scholarly assessment of how diverse performative cultures interact how they are interwoven and how they are dependent upon each other While the term intercultural theatre as a concept points back to postcolonialism and its contradictions The Politics of Interweaving Performance Cultures explores global developments in the performing arts that cannot adequately be explained and understood using postcolonial theory The authors challenge the dichotomy the West and the rest where Western cultures are universal and non Western cultures are particular as well as ideas of national culture and cultural ownership This volume uses international case studies to

explore the politics of globalization looking at new paternalistic forms of exchange and the new inequalities emerging from it. These case studies are guided by the principle that processes of interweaving performance cultures are in fact political processes. The authors explore the inextricability of the aesthetic and the political whereby aesthetics cannot be perceived as opposite to the political rather the aesthetic is the political. Helen Gilbert's essay 'Let the Games Begin: Pageants, Protests, Indigeneity' (1968-2010) won the 2015 Marlis Thiersch Prize for best essay from the Australasian Drama Theatre and Performance Studies Association.

Drama, Play, and Game Lawrence M. Clopper, 2001-05. How was it possible for drama, especially biblical representations, to appear in the Christian West given the church's condemnation of the theatrum of the ancient world? In a book with radical implications for the study of medieval literature, Lawrence Clopper resolves this perplexing question. *Drama, Play, and Game* demonstrates that the theatrum repudiated by medieval clerics was not theater as we understand the term today. Clopper contends that critics have misrepresented Western stage history because they have assumed that theatrum designates a place where drama is performed. While theatrum was thought of as a site of spectacle during the Middle Ages, the term was more closely connected with immodest behavior and lurid forms of festive culture. Clerics were not opposed to liturgical representations in churches but they strove ardently to suppress May games, ludi, festivals, and liturgical parodies. Medieval drama then stemmed from a more vernacular tradition than previously acknowledged one developed by England's laity outside the boundaries of clerical rule.

Leadership of Assessment, Inclusion, and Learning Shelleyann Scott, Donald E. Scott, Charles F. Webber, 2015-10-20. This book provides pragmatic strategies and models for student assessment and ameliorates the heightened sense of confusion that too many educators and leaders experience around the complexities associated with assessment. In particular, it offers guidance to school and district personnel charged with fair and appropriate assessment of students who represent a wide variety of abilities and cultures. Chapters focus on issues that directly impact the educational lives of teachers, students, parents, and caregivers. Importantly, the confluence of assessment practices and community expectations also are highlighted. Assessment is highly politicized in contemporary society and this book will both confirm and challenge readers' beliefs and practices. Indeed, discerning readers will understand that the chapters offer them a bridge from many established assessment paradigms to pragmatic, ethical solutions that align with current expectations for schools and districts. In Part One, readers engage with concepts and skills needed by school learning leaders to guide optimal assessment practices. Part Two delves into student assessment within and across disciplines. Part Three provides pragmatic approaches that address assessment in the context of inclusive, intercultural education, pluralism, and globalisation.
