Espinola-Arredondo, Felix Muñoz-Garcia, 2021-10-21 A textbook for students of economics introducing the analysis of common pool resources using basic game theory tools **Pastoralism and Common Pool Resources** Sandagsuren

Undargaa, 2016-03-31 The grazing of animals on common land and associated property rights were the original basis of the concept of the tragedy of the commons Drawing on the classic work of Elinor Ostrom and the readings of political ecology this book questions the application of exclusive property rights to mobile pastoralism and rangeland resource governance It argues that this approach inadequately represents property relations in the context of Mongolian pastoralism The author presents an in depth exploration and analysis of mobile pastoral production and resource management in Mongolia The country is widely considered to be a prime example of successful and resilient common pool resource management but now faces a dilemma as policy advocates attempt to adjust historical pastoralism to a modern property regime framework The book strengthens understanding of the complex and multilateral considerations involved in natural resource governance and management in a mobile pastoralist context It considers the implications for common pool resource management and pastoral societies in Africa Russia and China and includes recommendations for formulating national policy **An**

Econometric and Game Theoretic Model of Common Pool Resource Management Wietze Lise, 2007 This book provides a manual for undertaking research into the role of people in commonly shared resources like forests water bodies fisheries and grazing pastures The method in this book constructs indicators for the level of participation net benefits from participating forest dependence forest quality inequality wealth and social differences It can be concluded that 1 the studied organisations for forest management vary considerably in their effectiveness and 2 voluntary participation is most likely to emerge among the villagers who depend highly on the forest and perceive the quality of the forest as good Cooperation in

Modern Society Anders Biel, Mark Snyder, Tom R. Tyler, Mark Van Vugt, 2012-12-06 Why do so many people volunteer to help others in need in society today What makes people give up the convenience of driving their car to benefit a better environment And why are citizens in general quite prepared to pay taxes to ensure adequate health care and support for the elderly and unemployed These are examples of a more fundamental question addressed in this book why do people cooperate for the welfare of their community state or organization Cooperation in Modern Society is a unique collection of contributions from internationally reputed scholars across the social sciences Green Planet Blues Geoffrey D. Dabelko, Ken

Conca, 2019-09-06 Revised and updated throughout this unique anthology examines global environmental politics from a range of perspectives and captures the voices of both the powerless and the powerful Paradigms of sustainability environmental security and ecological justice illustrate the many ways environmental challenges and their solutions are

Cooperative Decision Making in Common Pool Situations Holger I. Meinhardt, 2012-12-06 The monograph gives a theoretical explanation of observed cooperative behavior in common pool situations The incentives for cooperative decision making are investigated by means of a cooperative game theoretical framework In a first step core existence results are worked out Whereas general core existence results provide us with an answer for mutual cooperation nothing can be said how strong these incentives and how stable these cooperative agreements are To clarify these questions the convexity property for common pool TU games is scrutinized in a second step It is proved that the convexity property holds for a large subclass of symmetrical as well as asymmetrical cooperative common pool games Core existence and the convexity results provide us with a theoretical explanation to bridge the gap between the observation in field studies for cooperation and the noncooperative prediction that the common pool resource will be overused and perhaps endangered

Environmental and Natural Resources Economics Steven Hackett, Sahan T. M. Dissanayake, 2014-12-18 Extensively revised and updated, this popular text presents an accessible yet rigorous treatment of environmental and natural resources economics including climate change and the economics of sustainability. Completely revised and updated, the fourth edition now includes new figures and tables, definitions to assist the reader and updated policy information. New advances in the science, economics and policy approaches to climate change have been integrated into essentially all new chapters on incentive regulation and global climate change. This innovative textbook integrates economics with science and public policy in a balanced and accessible way that will be appreciated by students from disciplines ranging from economics and natural resources management to environmental studies and energy policy.

WSPC Reference On Natural Resources And Environmental Policy In The Era Of Global Change, The (In 4 Volumes), 2016-10-21 The WSPC Reference on Natural Resources and Environmental Policy in the Era of Global Change provides a comprehensive and prominent reference of various highly authoritative volumes of long-term scientific value for milestone concepts and theories. The books in the reference set are edited by leading experts in the fields of Game Theory, International Relations and Global Politics, Computable General Equilibrium (CGE) Economy, Wide Modeling and Experimental Economics. Each book in the reference set includes chapters that are laid out by recognized, broadly respected researchers in fields associated with issues related to natural resources and environmental policy in the era of global change. The reference set focuses on the economic and strategic aspects of interactions among various parts of society all dependent on the availability and utilization of limited natural resources and their impact on the environment. Policy implications are addressed, including current challenges and future perspectives. The combination of the four books provides a unique perspective on the issues that engage the public discourse of researchers and policy makers at state, regional and global levels. Each of the books in the reference set and all four books as a whole provide coverage of disciplines and angles through which the reader can obtain an understanding of the state of the art of dealing with natural resources and environmental policy in the era of global

change The books in the reference set complement each other and provide a scientific understanding of our ability to address the issues covered

Negotiating International Water Rights Muserref Yetim, 2016-06-28 Transboundary watercourses account for an estimated 60 per cent of global freshwater flow and support the livelihoods of hundreds of millions of people worldwide Yet the indeterminate status of water rights in many international watercourses presents a problem and many attempts to resolve water rights issue have failed Knowing how and where negotiations fail is essential if successful resolution is to be achieved Muserref Yetim's important book seeks to illustrate a means to the peaceful resolution of natural resource based conflicts Through a detailed study of the Tigris Euphrates water conflict involving Turkey Syria and Iraq countries of vital security interest to the world at large the author clarifies the collective action dilemmas confronting Middle Eastern watercourses and reveals the bargaining bottlenecks where negotiations fail She develops an original framework that explains bargaining failures and proposes conditions for creating a new property rights regime among watercourse states that offers a route to governing their shared water resources in ways that are politically economically and environmentally sound In almost all water scarce regions international water resources are subject to intense unilateral exploitation in a highly competitive fashion And as demand for freshwater continues to increase through increasing urbanization and the continuing development of societies so the issue of how such shared water resources can best be governed is becoming vitally important *Negotiating International Water Rights* offers both a timely contribution to a matter of international concern and important insights into resource conflict in countries of vital security interest to the world at large

The Global Commons Susan J. Buck, 2017-09-25 Antarctica the high seas and deep seabed the atmosphere and space are increasingly accessible and exploited resource domains Collectively known as the global commons they represent a new and profound challenge for international law and institutions In *The Global Commons* Susan Buck considers the unique physical legal management and policy problems associated with these areas The book is a clear useful introduction to the subject that will be of interest to general readers as well as to students in international relations international law and environmental law and policy

Redefining Diversity and Dynamics of Natural Resources Management in Asia, Volume 1 Ganesh Shivakoti, Ujjwal Pradhan, Helmi Helmi, 2016-09-01 *Redefining Diversity and Dynamics of Natural Resources Management in Asia* Volumes 1-4 brings together scientific research and policy issues across various topographical areas in Asia to provide a comprehensive overview of the issues facing the region Sustainable Natural Resources Management in Dynamic Southeast Asia Volume 1 pulls together regional experts in the field to look specifically at sustainability issues across the region to see what has been implemented what the impacts have been and what other options are available In the race to be a developed region many Southeast Asian countries have foregone natural resources through haphazard use As a result the people are faced with numerous environmental challenges particularly deforestation and forest degradation biodiversity loss and ecosystem degradation reduction in soil quality and decreases in the quantity of available water

Community based forest management is the involvement of local communities in the protection conservation and management of public forests to prevent degradation through sustainable practices while still responding to the basic social and economic needs of local populations When the people who depend on forest resources for their livelihoods are jointly responsible for managing and protecting them they tend to do so in a more sustainable manner by focusing on the long term benefits rather than the immediate short term gains However when tenure rights are weak unclear or insecure or offer limited benefits people are incited in extracting more immediate benefits resulting in suboptimal forest management and the reduction of carbon stocks Features case studies that cover issues such as rising levels of deforestation forest degradation regional food security ecosystem degradation biodiversity loss conflicts over natural resource use water management issues and impacts on local communities Includes contributions from local researchers who are dealing with these issues first hand and on a daily basis Includes a comparative review on REDD implementation in different communities Focuses on sustainability issues across the region
