Tradition on Trial, 1920-1945 David G. Marr,1984-02-03 Despite the historical importance of the Vietnam War we know very little about what the Vietnamese people thought and felt prior to the conflict Americans have tended to treat Vietnam as an extension of their own hopes and fears successes and failures rather than addressing the Vietnamese record In this

volume David Marr offers the first serious intellectual history of Vietnam focusing on the period just prior to full scale revolutionary upheaval and protracted military conflict He argues that changes in political and social consciousness between 1920 and 1945 were a necessary precondition to the mass mobilization and people s war strategies employed subsequently against the French and the Americans Thus he rejects the prevailing notion that Vietnamese success was primarily due to communist techniques of organization However Vietnamese Tradition on Trial goes beyond simply accounting for anyone s victory or defeat to an informed description of intellectual currents in general Replying for his information on a previously ignored corpus of books pamphlets periodicals and leaflets the author isolates eight issues of central concern to twentieth century Vietnamese The new intelligentsia indubitably the product of a peculiar French colonial milieu yet never divorced from the Vietnamese past and always looking to a brilliant Vietnamese future spearheaded every debate beginning ini 1925 After 1945 Vietnamese intellectuals either placed themselves under ruthless battlefield discipline or withdrew to private meditation David Marr suggests that the new problems facing Vietnamese today make both of these approaches anachronistic Whether the Vietnam Communist Party will allow citizens to subject received wisdom to critical debate to formulate new explanations of reality to test those explanations in practice is the essential question lingering at the end of this study

and forwards on the Afghan conflict they worked with the international mission both as advisers and within the Arg and they have considerable experience of counterinsurgency and stabilization operations elsewhere in the world Here these two experts show that there is plenty of blame to go around when explaining the failure to bring peace to Afghanistan after 9 11 The signs of collapse were conveniently ignored in favor of political narratives of progress and success Yet for Afghans the war and its geopolitical effects are not over because NATO is gone Afghanistan remains globally connected through digital communications and networks This vital book explains why and where failings in Afghanistan happened warning against exceptionalist approaches to future peacebuilding missions around the globe
