One challenge is to approach the topic with a balanced perspective, considering various viewpoints and arguments. The issue of same-sex marriage is highly debated, and opinions vary widely. Debating Same-Sex Marriage John Corvino, Maggie Gallagher, 2012-06-01 Taking a point counterpoint approach John Corvino a philosopher and a prominent gay advocate and Maggie Gallagher a nationally syndicated columnist and co founder of the National Organization for Marriage consider key questions about the institution itself What is marriage for Is marriage meant to be a gendered institution Why is the state in the business of sanctioning marriage Where do the needs of children fit in Will legalization of same sex marriage lead to legalization of polygamy Corvino argues that society should support same sex marriage because of its interest in supporting stable households for all its members gay and straight alike Gallagher argues that government recognition of same sex unions as marriages will disconnect marriage from its key public mission furthering responsible procreation while stigmatizing traditional views of sex marriage and family as bigotry Both agree that the issue deserves thoughtful rigorous engagement

Moral Argument, Religion, and Same-sex Marriage Gordon Albert Babst, Emily R. Gill, Jason Pierceson, 2009-01-01 The diverse expert contributors to this volume from the fields of politics and law use moral argumentation with respect to same sex marriage gay rights in general and California's Prop 8 The arguments are advanced in terms of the nation's foundational political and legal principles extending ethical argumentation to important contemporary public policy areas such as marriage the separation of church and state and the rearing of children Several chapters also contest the perceived if not actual establishment in the law and public policy of heterosexist and religious bias that continues to work against full and meaningful inclusion of sexual minorities This bias is ironically and improperly couched in the language of American political and religious values and it misunderstands the nation's core principles or willfully miscasts them as inapplicable to many Americans and their families Nonetheless this bias is pervasive in the nation's political discourse working to deny an important right and the recognition of equality to many citizens The main contribution

of Moral Argument Religion and Same Sex Marriage is in its direct engagement with the political and legal arguments of the gay community's critics on their own moral and ethical terms. Along the way, important concepts in public discourse such as governmental neutrality, the right to marry, and religious freedom are presented and cast in the light of liberal democratic theory.

One in Many Saligrama K. Aithal, 2013-09-30 A sequel to *Many in One*, the volume *One in Many* portrays characters in a variety of situations from playful to serious to deeply moving and boundlessly joyful. In place of Madhav taking different roles in the stories in the earlier volume, each of the stories in *One in Many* has a separate central character. Nearly all of them are made in the mould of Madhav: humorous, witty, and serious, and their differences melt away just as the differences between people of different countries, nations, and religions do. It is in fact hard to describe the characters by their nationality. They may possess Indian names, but their nationality and citizenship are another matter. They have relatives and friends in both the continents, and their identities transcend national geographical boundaries. The locale of the stories also lacks distinct unity; it extends from one hemisphere to the other, from Washington DC to Balgudi, a town in India not however to be found on a map. The focus of the stories is not what separates people one from the other but what binds them together, rather what can and should bind them together.

American Multicultural Studies Sherrow O. Pinder, 2013 *American Multicultural Studies* Diversity of Race Ethnicity Gender and Sexuality provides an interdisciplinary view of multicultural studies in the United States, addressing a wide range of topics that continue to define and shape this area of study. Through this collection of essays, Sherrow Pinder responds to the need to open up a rich avenue for addressing current and continuing issues of race, gender, ethnicity, sexuality, cultural diversity, and education in their varied forms. Substantial thematic overlaps are found between sections and essays, all of which are oriented toward a single broad objective: to develop new and different ways of addressing how multicultural issues in their discursive sociocultural contexts are inextricably linked to the operations of power. Power as a site of resistance to which it invariably gives rise is tackled from a perspective that attends to the complexities of America's history and politics.
