Academics Engaging with Student Writing Jackie Tuck, 2017-07-14 Student writing has long been viewed as a problem in higher education in the UK Moreover the sector has consistently performed poorly in the National Student Survey with regard to assessment and feedback Academics Engaging with Student Writing tackles these major issues from a new and unique angle exploring the real life experiences of academic teachers from different institutions as they set support read respond to and assess assignments undertaken by undergraduate students Incorporating evidence from post 1992 universities Oxbridge members of the Russell Group and others this book examines working practices around student writing within the context of an increasingly market oriented mass higher education

system Presenting a wealth of relevant examples from disciplines as diverse as History and Sports Science Tuck makes extensive use of interviews observations texts and audio recordings in order to explore the perspectives of academic teachers who work with student writers and their texts This book will be of interest to researchers academics and postgraduate students in the fields of academic literacies higher education language and literacy language in higher education English for academic purposes and assessment Furthermore academic teachers with experience of this crucial aspect of academic labour will welcome Tuck s pioneering work as an indispensable tool for making sense of their own engagement with student writers

Journal of Nursing Education ,1989 **Teaching Academic Writing** Caroline Coffin,Mary Jane Curry,Sharon Goodman,Ann Hewings,Theresa Lillis,Joan Swann,2005-07-26 Student academic writing is at the heart of teaching and learning in higher education Students are assessed largely by what they write and need to learn both general academic conventions as well as disciplinary writing requirements in order to be successful in higher education Teaching Academic Writing is a toolkit designed to help higher education lecturers and tutors teach writing to their students Containing a range of diverse teaching strategies the book offers both practical activities to help students develop their writing abilities and guidelines to help lecturers and tutors think in more depth about the assessment tasks they set and the feedback they give to students The authors explore a wide variety of text types from essays and reflective diaries to research projects and laboratory reports The book draws on recent research in the fields of academic literacy second language learning and linguistics It is grounded in recent developments such as the increasing diversity of the student body the use of the Internet electronic tuition and issues related to distance learning in an era of increasing globalisation Written by experienced teachers of writing language and linguistics Teaching Academic Writing will be of interest to anyone involved in teaching academic writing in higher education Time To Know Them Marilyn S. Sternglass,2017-09-25 In a time of declining resources in institutions of higher education we grapple with how priorities are to be set for the limited resources available Most vulnerable are those students labeled underprepared by colleges and universities Should we argue that the limited resources available ought to be used to support these students through their undergraduate years And if we decide that we want to do that what evidence of their potential for success can we provide that will justify the use of these resources Through longitudinal research that follows students who have been so labeled over all their college years we can begin to find answers to these questions Time to Know Them is the first book that follows the experiences of a group of students over their entire academic experience No previous studies have brought together the factors incorporated in this study examining writing and learning on a true longitudinal basis studying a multicultural urban population investigating the relationship between writing and learning by examining papers written over time for regularly assigned academic courses across a range of disciplines and taking into consideration non academic factors that influence academic performance such as race gender socio economic status and ideological orientation Through interviews twice a semester over six years the collection of papers

written for all courses observations of instructional settings and analysis of required institutional tests of writing the author has been able to pull together a more complete picture of writing and intellectual development over the college years than has previously been available in any study Students are seen to acquire the ability to handle more complex reasoning tasks as they find themselves in more challenging intellectual settings and where risk taking and exploration of new ideas are valued The integration of students previous life experiences into their academic studies allows them to analyze critique modify and apply their previously held world views to their new learning These changes are seen to occur over time with instructional settings and support providing key roles in writing development Personal factors in students lives present difficulties that require persistence and dedication to overcome Never before have the complexities of real individual lives as they affect academic performance been so clearly presented

The Theory and Practice of Grading Writing Frances Zak, Christopher C. Weaver, 1998-02-05 CHOICE 1998 Outstanding Academic Books Grading is one of the thorniest issues writing teachers must deal with yet surprisingly little has been written on this topic As writing teachers move increasingly toward practices that focus on writing as a process they face a growing need to reconsider their systems of grading to determine whether or not these systems support their pedagogies The authors interrogate the grading of individual papers as well as portfolios and the assigning of end of term grades This collection explores the issues and problems that have emerged as conventional grading practices have lagged behind and been challenged by new theories of language While the book will be of interest to theorists Zak and Weaver have also made the book relevant and useful to teachers whose primary interest is the practical consequences of theory in their classrooms Where theoretical discussion takes place the language is clear and accessible Many of the authors write directly from personal experience telling stories of the classroom or writing of new techniques and approaches they have tried They speak with the voices of teachers and the tone and content of their words convey a sense of the immediacy of the topic
