Nest of Spies Amir Taheri, 1988 American foreign policy toward Iran in the post World War II era has been a failure Its attempt to foster democracy in a Muslim country and its support of the Shah s decadent policies ultimately only served the interests of Islamic fundamentalists The author an Iranian journalist has conducted numerous interviews and relies heavily upon his study of the official American government and intelligence documents that were seized by Iranian student nationalists after they took over the American embassy in Teheran in 1979 He argues that America s most current failure the Iran Contra affair was the direct result of a lack of congressional interest and concern which allowed the State Department and the CIA to operate with little supervision A good book for an understanding of current U S Iranian relations Well recommended for a wide range of readers
