Counter-insurgency Matthew Hughes, 2016-04-08 This edited collection examines the British way in counter insurgency It brings together and consolidates new scholarship on the counter insurgency associated with the end of empire foregrounding a dark and violent history of British imperial rule one that stretched back to the nineteenth century and continued until the final collapse of the British Empire in the 1960s The essays gathered in the collection cover the period from the late nineteenth century to the 1960s they are both empirical and conceptual in tone This edited collection pivots on the theme of the nature of the force used by Britain against colonial insurgents It argues that the violence employed by British security forces in counter insurgency to maintain imperial rule is best seen from a maximal perspective contra traditional arguments that the British used minimum force to defeat colonial rebellions Case studies are drawn from across the British Empire covering a period of some hundred years but they concentrate on the savage wars of decolonisation after 1945 The collection includes a historiographical essay and one on the lost Hanslope archive by the scholar chosen by the Foreign and Commonwealth Office to manage the release of the papers held This book was published as a special issue of Small Wars and Insurgencies *International Negotiation* Fred Charles Iklé, 1970 RONOD Relay Officer Nuclear Operations Division

PEAKE and BRITAIN'S ROAD TO SPACE Erik Seedhouse, 2017-09-11 For centuries the British developed a reputation as a nation of explorers From Francis Drake's circumnavigation of the globe to the ascent of Everest British explorers crossed oceans and continents and ventured where few if any had gone before Until very recently that legacy of exploration had not extended to space For decades successive governments chose to stay out of the human spaceflight programme but in 2008 there were signs of optimism when ESA selected a new class of six astronauts including for the first time a British representative Timothy Peake This book puts the reader in the flight suit of Britain's first male astronaut In addition to delving into the life of Tim Peake this book discusses the learning curves required in astronaut and mission training and the complexity of the technologies required to launch an astronaut and keep them alive for months on end This book underscores the fact that technology and training unlike space do not exist in a vacuum complex technical systems like the ISS interact with the variables of human personality and the cultural background of the astronauts But ultimately this is the story of Tim Peake and the Principia mission and the down to the last bolt descriptions of life aboard the ISS by way of the hurdles placed by the British government and the rigors of training at Russia's Star City military base **Bringing War to Book** Rachel Woodward, K. Neil Jenkins, 2018-05-04 This book explores how military memoirs come to be written and published Looking at the journeys through which soldiers and other military personnel become writers the authors draw on over 250 military memoirs published since 1980 about service with the British armed forces and on interviews with published military memoirists who talk in detail about the writing and production of their books A range of themes are explored including the nature of the military memoir motivations for writing authors reflections on their readerships inclusions and exclusions within the text the memories and materials that authors draw on the collaborations that make the production and publication of military memoirs possible and the issues around the design of military memoirs distinctive covers Written by two leading commentators on the sociology of the military Bringing War to Book offers a new and original argument about the representations of war and the military experience as a process of social production The book will be of interest to students and scholars across a range of disciplines including sociology history and cultural studies The Medical Times and Register, 1894 Operations in Afghanistan Great Britain: Parliament: House of Commons: Defence Committee, 2011-07-17 This report looks at operations in Afghanistan since 2006 and makes further recommendations for the anticipated draw down of forces UK Forces were deployed in Helmand Province in Afghanistan for three years from 2006 without the necessary personnel equipment or intelligence to succeed in their mission Mistakes were made as a result of a failure in military and political coordination The decision to move UK Armed Forces into the South of Afghanistan in early 2006 was not fully thought through The Committee is concerned that the MoD did not anticipate that the presence of the Armed Forces in Helmand might stir up a hornets nest especially as much of the intelligence was contradictory Senior military advisers should have drawn attention to the need for force levels to be sufficiently robust to cope with an unpredictable conflict The

Committee is disturbed that the Secretary of State was told that commanders on the ground were content with the support they were being given in Helmand when clearly they were not. After only a matter of months in Helmand the nature of the UK Mission changed with serious strategic implications. The MoD did not respond quickly enough to changes in Taliban tactics. The MoD should prioritise the protection of personnel. The Government's room for manoeuvre regarding the number of troops that could be withdrawn from Afghanistan as part of an immediate transition is necessarily limited. More emphasis needs to be placed on capacity building within the political system if long term success is to be achieved. Roar of the Tiger - Illustrated History of Operations in Kashmir by 4th Battalion The Kumaon Regt in 1965 War Sm Jasbir Singh, 2013-05-01. An illustrated history of operations in Kashmir by 4th Battalion the Kumaon Regiment 4 Kumaon during India Pakistan War 1965. *Special Bibliography No. 26 on United States Army Special Operations and Low-intensity Conflict, 1940-1986* Claude C. Sturgill, US Army Military History Institute, 1989. Opinions of the Attorney General of the State of Wisconsin Wisconsin. Attorney General's Office, 1968. **The British Imperial Army in the Middle East** James E. Kitchen, 2014-01-16. The First World War has often been understood in terms of the combat experiences of soldiers on the Western Front; those combatants who served in the other theatres of the war have been neglected. Using personal testimonies, official documentation and detailed research from a diverse range of archives, *The British Imperial Army in the Middle East* explores the combat experiences of these soldiers. The army that fought the Ottoman Empire was a multinational and multi-ethnic force drawing personnel from across Britain's empire, including Australia, New Zealand and India. By taking a transnational and imperial perspective on the First World War, this book ensures that the campaigns in Egypt and Palestine are considered in the wider context of an empire mobilised to fight a total and global war. **Assassins** Boris Volodarsky, 2020-02-19. In November 1998, Alexander Litvinenko, a former Lieutenant Colonel of the Russian security service or FSB, along with several former colleagues, publicly stated that their superiors had instigated an assassination attempt on a Russian tycoon and oligarch. Following his subsequent arrest and failed trials, Litvinenko fled to London, where, having been granted asylum, he worked as a journalist and writer, as well as acting as a consultant for the British intelligence services. Eight years later, Litvinenko's past caught up with him when he was assassinated in London. It was on 1 November 2006 that Litvinenko was suddenly taken ill; so serious was his condition that he was hospitalised. He passed away twenty-two days later. Significant amounts of a rare and highly toxic element were subsequently found in his body. Before his death, Litvinenko had said, 'You may succeed in silencing one man, but the howl of protest from around the world, Mr Putin, will reverberate in your ears for the rest of your life.' In this examination of the events surrounding Litvinenko's murder, the author Boris Volodarsky, who was consulted by the Metropolitan Police during the investigation and remains in close contact with Litvinenko's widow, details the events surrounding the assassination. He brings the story up to date, referring to the findings of the official British inquiry on the release of which Prime Minister David Cameron condemned Putin for presiding over state-sponsored murder.

The author proves that the Litvinenko s poisoning is just one of many Some of these assassinations or attempted assassinations are already known others are revealed by him for the first time Wondrous Transformations Alison Li,2023-09-14 Harry Benjamin 1885 1986 a German born endocrinologist was a pivotal figure in the development of transgender medicine He was physician to transgender pioneers such as Christine Jorgensen the 1950s Ex GI turned Blonde Beauty media sensation and in turn she and other collaborators helped to shape Benjamin s influential 1966 book *The Transsexual Phenomenon* Alison Li s much needed biography of Benjamin chronicles his passion for hormones and his lifelong interest in sexology Drawing from extensive research in archival documents secondary sources and interviews Li tells the story of Benjamin s early ventures in gerontology and his later work with over a thousand transgender patients Benjamin s contributions to treatment education research and networking helped to create the institutional foundations of transgender medicine Moreover they set the stage for a radical reconsideration of gender identity challenging us to reflect upon what it is to be male or female and to envision moving beyond these long held categories
