The Green Berets in the Land of a Million Elephants

Joseph D. Celeski, 2020-01-10 The untold story of US Special Forces in Laos one of the longest secret wars of the Cold War by a military historian and Special Forces veteran The Secret War in Laos was one of the first long wars fought by US Special Forces spanning a period of about thirteen years It was one of the largest CIA paramilitary operations of the time kept out of the view of the American public until now Between 1959 and 1974 Green Berets were covertly deployed to Laos during the Laotian Civil War to prevent the Communist Pathet Lao from taking over the country Operators disguised as civilians and answering only to Mister were delivered to the country by Air America where they reported to the US Ambassador With limited resources they faced a country in chaos Maps had large blank areas and essential supplies often didn't arrive at all In challenging tropical conditions they trained and undertook combat advisory duties with the Royal Lao Government Shrouded in secrecy until the 1990s this was one of the first major applications of special warfare doctrine Now the story is comprehensively told for the first time using official archival documents and interviews with veterans Locating the Transatlantic in Twentieth-century Politics, Diplomacy and Culture Gaynor Johnson, 2024-01-25 Written in tribute to the work of Professor Alan Dobson this collection of essays brings diplomacy and the Anglo American relationship together considering politics and foreign policy in tandem with cultural interactions Uniquely placed to define exactly what transatlanticism is and to explore the ways in which this idea has evolved in the last 150 years this book asks to what extent can it be argued that there was a transatlantic world how can it be defined and what was unique about it With contributions from leading scholars it offers an overview of the field as well as a comparative exploration of Anglo American relations From emotion in foreign policy decision making to the RAF in the Vietnam War as well as leader personalities and transatlantic reactions to women's rights in China Locating the Transatlantic in Twentieth century Politics Diplomacy and Culture explores this special relationship at many levels and from many angles It further asks how this relationship has evolved over the years and considers how it might survive in a globalized post industrial world Honor Denied Allen Cates, 2011-11-11 Air America flight crews hired as civilians but castigated as mercenaries malcontents and psychopaths operated military aircraft and performed yeoman service for twenty five years until the war in Southeast Asia ended on a rooftop in downtown Saigon They have never been recognized for their sacrifices Author and former Air America pilot Allen Cates cuts through the myths and subterfuge surrounding this elite stealth Air Force used by the United States to fight a secret war in Honor Denied The culmination of Cates' years as a pilot and his in depth research into Air America's murky past this intense study follows his escape from rural small town America to the US Marines as well as his time as an officer and pilot flying combat operations in Vietnam and rescue missions for Air America Peppering the narrative with vivid personal details Cates describes the background and purpose of this unique organization and then discloses the startling casualties both those killed in action and those wounded and injured with permanent disability He shines the light on their cause long hidden from the general public and reveals how these brave men and women were denied recognition and benefits by those who knew the truth including

the US President secretaries of state and defense and even the director of the CIA Proud yet never boastful Honor Denied tells a story that needs to be told and heard *America and Vietnam, 1954-1963* Michael M. Walker, Col., USMC (Ret.), 2022-08-31 The conventional narrative of the Vietnam War often glosses over the decade leading up to it Covering the years 1954-1963 this book presents a thought provoking reexamination of the war's long prelude from the aftermath of French defeat at Dien Bien Phu through Hanoi's decision to begin reunification by force to the assassination of South Vietnamese President Ngo Dinh Diem Established narratives of key events are given critical reappraisal and new light is shed on neglected factors The strategic importance of Laos is revealed as central to understanding how the war in the South developed [REDACTED], 2025-02-20 **The McNamara Ascendancy, 1961-1965** Lawrence S. Kaplan, Ronald Dean Landa, Edward J. Drea, 2006 A narrative history and assessment of the early years of Robert McNamara's tenure as Secretary of Defense including McNamara's relationship with Presidents Kennedy and Johnson the transformation of the Department of Defense as a part of Kennedy's New Frontier and the Pentagon's handling of the Cuban Missile Crisis Bay of Pigs episode and onset of the Vietnam War along with other major national security events and developments during a turbulent and momentous period of the Cold War Fuller description is on the dust jacket flaps *A Military History of the Cold War, 1944-1962* Jonathan M. House, 2014-04-28 The Cold War did not culminate in World War III as so many in the 1950s and 1960s feared yet it spawned a host of military engagements that affected millions of lives This book is the first comprehensive multinational overview of military affairs during the early Cold War beginning with conflicts during World War II in Warsaw Athens and Saigon and ending with the Cuban Missile Crisis A major theme of this account is the relationship between government policy and military preparedness and strategy Author Jonathan M House tells of generals engaging in policy confrontations with their governments political leaders among them Anthony Eden Nikita Khrushchev and John F Kennedy many of whom made military decisions that hamstrung their own political goals In the pressure cooker atmosphere of atomic preparedness politicians as well as soldiers seemed instinctively to prefer military solutions to political problems And national security policies had military implications that took on a life of their own The invasion of South Korea convinced European policy makers that effective deterrence and containment required building up and maintaining credible forces Desire to strengthen the North Atlantic alliance militarily accelerated the rearmament of West Germany and the drive for its sovereignty In addition to examining the major confrontations nuclear and conventional between Washington Moscow and Beijing including the crises over Berlin and Formosa House traces often overlooked military operations against the insurgencies of the era such as French efforts in Indochina and Algeria and British struggles in Malaya Kenya Cyprus and Aden Now more than fifty years after the events House describes understanding the origins and trajectory of the Cold War is as important as ever By the late 1950s the United States had sent forces to Vietnam and the Middle East setting the stage for future conflicts in both regions House's account of the complex relationship between diplomacy and military action directly
