Process Strategy and Analysis

DISCUSSION QUESTIONS

1. Many processes at manufacturing facilities involve customer contact. Internal customers would include those employees whose operation(s) are subsequent. Quality Control could be considered an internal customer as could design engineering or sales. Quality Control, design engineering, marketing, sales and other organizations represent the customer at various stages of any process. Customer contact can be very high, especially between production and engineering and production and quality control.
2. Some students may see this as a difference in competitive priorities. Others may see a difference in management styles. Ritz-Carlton empowers their employees and the local restaurant does not seem to empower. Ritz-Carlton believes that by having employees treat customers and other employees with respect, customer service is enhanced. A restaurant that does not allow employees to resolve a customer issue may not see enhanced customer service. The restaurant may believe that the to-go customer will be better satisfied with fast and accurate orders. The in-store customer gets the chips and salsa to utilize the time while waiting for an order to be prepared. The to-go customer has already placed that order and it is ready when the customer arrives at the pickup window.
3. eBay has considerable arrival and request variability, because its customers do not want service at the same time or at times necessarily convenient to the company. They have request variability, seeking to buy and sell an endless number of items. Their process strategy allows significant customer involvement. Their customers
