research needs Habits of Mind Across the Curriculum Arthur L. Costa, Bena Kallick, 2009-01-15 Distinguished educators Arthur L. Costa and Bena Kallick present this collection of stories by educators around the world who have successfully implemented the habits in their day to day teaching in K 12 classrooms. The collective wisdom and experience of these thoughtful practitioners provide readers with insight into the transdisciplinary nature of the 16 Habits of Mind, intelligent behaviors that lead to success in school and the larger world as well as model lessons and suggestions for weaving the habits into daily instruction in language arts, music, physical education, social studies, math, foreign language, and other content areas. Readers will come to understand that far from an add-on to the curriculum, the habits are an essential element for helping students at all grade levels successfully deal with the challenges they face in school and beyond. As in all their books on the Habits of Mind, Costa and Kallick have a broad and worthwhile goal in mind. As they say in the concluding chapter of this volume, "If we want a future that is much more thoughtful, vastly more cooperative, greatly more compassionate, and a whole lot more loving than we have, we have to invent it. That future is in our homes, schools, and classrooms today. The Habits of Mind are the tools we all can use to invent our desired vision of the future." *How to Teach Students Who Don't Look Like You* Bonnie M. Davis, 2006 Working with students from diverse backgrounds is one of the greatest challenges teachers face. In addition, teachers and administrators face additional pressure to close the achievement gap between white students and their racial and ethnically diverse counterparts. A former teacher, Bonnie Davis has particular insight into this issue as a white woman with a black son who has successfully taught students of diverse backgrounds. Drawing on the educational literature on the subject, Bonnie has created an interactive workbook for teachers that will help them understand their students and find new and better ways of teaching to them.
