research **You Can Publish Your Journal Article** Gilbert C. Gee, 2023-12-13 You've completed your research and want to publish it in a peer-reviewed journal. Author Gilbert C. Gee is here to help sharing what he learned as a writer, reviewer, and Editor in Chief and calling on other journal editors to offer their advice. *You Can Publish Your Journal Article* will not only help you write your paper but more importantly be more likely to succeed in peer review. The book has four main premises: that writing involves a relationship between you and your readers and that your research joins an ongoing conversation in the field; that good writing is rewriting and revision is critical; that people who write daily are more productive than those who binge write; and finally that persistency wins so don't give up when you get a rejection. With chapters offering practical advice on selecting the right journal, peer review, the methods section, displaying your data, writing the results and discussion sections, the book concludes with short essays from invited journal editors about how to avoid common mistakes and ensure success.

Research Handbook of Academic Mental Health Marissa S. Edwards, Angela J. Martin, Neal M. Ashkanasy, Lauren E. Cox, 2024-10-03 There has been much recent commentary regarding a crisis in academic mental health and wellbeing. This *Research Handbook* showcases cutting-edge studies and insightful narratives on the wellbeing of doctoral students, early career researchers, and faculty members, illuminating the current state of academic mental health research. Importantly, authors also offer potential solutions to the increasingly poor mental health reported by those working and studying in the higher education sector.

Improve Your Writing Ron Fry, 2011-12-30 This step-by-step guide shows how, by following a few simple rules when selecting a topic, using library research, developing an outline, writing your first draft, then final version, any student can improve both the structure and style of an essay or dissertation. It also gives advice on how to pass timed essay tests.

Writing for Earth Scientists Stephen K. Donovan, 2017-05-08 The time has come. You are an Earth scientist. You've spent weeks, months, years working on this project; now is the time to pull it together for publication. You might be writing an undergraduate or graduate thesis, a research paper for a leading journal, a note for the newsletter of the local amateur scientific society, a book review, or an abstract for a specialist geological conference. How do you make the transition from promising unpublished researcher to established academic author? Of course, the phrase academic publishing covers a multitude of sins: monographs, research papers, book reviews, conference abstracts, or whatever. Each requires a different approach. You have to decide what it is you are going to write and where to publish it. There are co-authors, supervisors of your degree, peer reviewers, and editors to deal with on the way. But the only way to write like an academic is to write like an academic. Where do you start? You could do much worse than start here. There are many books on how to write and be published, aimed at research students and other aspiring academics. Many of these are readable, comprehensive, and provide good advice. This book is composed of numerous short chapters on this subject, all directly relevant to one or more aspects of academic publishing and aimed particularly at the Earth scientists in the broadest sense. Geologists will be encouraged to use the book as much as a reference as a reader dipping in to the chapters that contain relevant tips, hints, and comments to

enable them to improve the paper that they are currently writing The book is intended to be informative readable and above all of practical application for all readers In summary the volume will be a readable compilation investigating many facets of academic publishing relevant to the Earth sciences It will be of particular interest to postgraduate students postdocs and new academics
