**Buckley:** *Jim Boyce honored  
as state's best science instructor*

BY JIM SZYMANSKI  
The News Tribune

Buckley science teacher Jim Boyce has added two more honors to his growing list of national and state awards.

The White River High School science department director returned from the White House this week, where he accepted the 2002 National Science Foundation Award as the state's best science teacher. Math teachers from Blaine and Seattle also won awards.

On Friday, Boyce will be in Philadelphia to pick up a Radio Shack honor awarded to outstanding science teachers in each state.

Five years ago, Boyce won the Washington Award for Excellence in Education and followed it the next year with a \$25,000 award from the Milken Family Foundation.

"Teaching is such a dynamic thing," Boyce said Monday. "The key to my approach is practicing what we call authentic learning."

Put simply, Boyce means relating science to real-world situations and issues.

His students this year are comparing the DNA in salmon and looking for genetic differences between fish in the spring and fall White River runs.

"We're looking to see if the genetics are different in the spring and fall runs to see whether those fish should be treated differently," he said. "They're the same endangered species, but we're looking to learn how they're different."

Just as important as the science are the relationships Boyce builds with students.

"It really doesn't matter what subject you're teaching," said Boyce, 43. "The curriculum you don't see and the attitudes students should have about life, their enthusiasm and their work ethic."

Keith Banks, principal of White River
