Obama S Time A History:

Barack Obama and the Myth of a Post-Racial America Mark Ledwidge, Kevern Verney, Inderjeet Parmar, 2013-10-08
The 2008 presidential election was celebrated around the world as a seminal moment in U S political and racial history White liberals and other progressives framed the election through the prism of change while previously acknowledged demographic changes were hastily heralded as the dawn of a post racial America However by 2011 much of the post election idealism had dissipated in the wake of an on going economic and financial crisis escalating wars in Afghanistan and Libya and the rise of the right wing Tea Party movement By placing Obama in the historical context of U S race relations this volume interrogates the idealized and progressive view of American society advanced by much of the mainstream literature on Obama Barack Obama and the Myth of a Post Racial America takes a careful look at the historical cultural and political dimensions of race in the United States using an interdisciplinary analysis that incorporates approaches from history political science and sociology Each chapter addresses controversial issues such as whether Obama can be considered an African American president whether his presidency actually delivered the kind of deep rooted changes that were initially prophesised and whether Obama has abandoned his core African American constituency in favour of projecting a race neutral approach designed to maintain centrist support Through cutting edge critically informed and cross disciplinary analyses this collection directly addresses the dimensions of race in American society through the lens of Obama s election and presidency **A History of Charisma** J. Potts, 2009-09-04 This book traces the history of the word charisma and the various meanings assigned to it from its first century origins in Christian theology to its manifestations in twenty first century politics and culture while considering how much of the word s original religious meaning persists in the contemporary secular understanding A More Beautiful and Terrible History Jeanne Theoharis, 2018-01-30 This bracing corrective to national mythology around the American civil rights movement shows us how little we remember and how much more there is to understand New York Times Theoharis s view of history is expansive as it reveals the diverse unsung heroes of the movement and criticizes the oversimplification of complex figures like Martin Luther King Jr O Magazine The civil rights movement has become national legend lauded by presidents from Reagan to Obama to Trump as proof of the power of American democracy This fable featuring dreamy heroes and accidental heroines like Martin Luther King and Rosa Parks anchors the movement firmly to the past whitewashes the forces that stood in its way and diminishes its scope Award winning historian Jeanne Theoharis dissects this national myth making teasing apart the accepted stories to show them in a strikingly different light She makes us reckon with the fact that far from being acceptable passive or unified the civil rights movement was unpopular disruptive and courageously persevering Activists embraced an expansive vision of justice which a majority of Americans opposed and which the federal government feared Her challenge of this fable reveals the immense barriers and repression activists faced She explores the diversity of people who led the movement especially women and young people the work and

disruption it took including the public demonization of rebels and the role of the media and polite racism in maintaining injustice A More Beautiful and Terrible History will change our historical frame revealing the richness of our civil rights legacy the uncomfortable mirror it holds to the nation and the crucial work that remains to be done The civil rights movement has become national legend lauded by presidents from Reagan to Obama to Trump as proof of the power of American democracy This fable featuring dreamy heroes and accidental heroines like Martin Luther King and Rosa Parks anchors the movement firmly to the past whitewashes the forces that stood in its way and diminishes its scope Award winning historian Jeanne Theoharis dissects this national myth making teasing apart the accepted stories to show them in a strikingly different light She makes us reckon with the fact that far from being acceptable passive or unified the civil rights movement was unpopular disruptive and courageously persevering Activists embraced an expansive vision of justice which a majority of Americans opposed and which the federal government feared Her challenge of this fable reveals the immense barriers and repression activists faced She explores the diversity of people who led the movement especially women and young people the work and disruption it took including the public demonization of rebels and the role of the media and polite racism in maintaining injustice A More Beautiful and Terrible History will change our historical frame revealing the richness of our civil rights legacy the uncomfortable mirror it holds to the nation and the crucial work that remains to be done

Bending History Martin S. Indyk, Kenneth G. Lieberthal, Michael E. O'Hanlon, 2013-09-04 By the time of Barack Obama's inauguration as the 44th president of the United States he had already developed an ambitious foreign policy vision By his own account he sought to bend the arc of history toward greater justice freedom and peace within a year he was awarded the Nobel Peace Prize largely for that promise In Bending History Martin Indyk Kenneth Lieberthal and Michael O'Hanlon measure Obama not only against the record of his predecessors and the immediate challenges of the day but also against his own soaring rhetoric and inspiring goals Bending History assesses the considerable accomplishments as well as the failures and seeks to explain what has happened Obama's best work has been on major and pressing foreign policy challenges counterterrorism policy including the daring raid that eliminated Osama bin Laden the reset with Russia managing the increasingly significant relationship with China and handling the rogue states of Iran and North Korea Policy on resolving the Israeli Palestinian conflict however has reflected serious flaws in both strategy and execution Afghanistan policy has been plagued by inconsistent messaging and teamwork On important softer security issues from energy and climate policy to problems in Africa and Mexico the record is mixed As for his early aspiration to reshape the international order according to greater roles and responsibilities to rising powers Obama's efforts have been well conceived but of limited effectiveness On issues of secondary importance Obama has been disciplined in avoiding fruitless disputes as with Chavez in Venezuela and Castro in Cuba and insisting that others take the lead as with Qaddafi in Libya Notwithstanding several missteps he has generally managed well the complex challenges of the Arab awakenings striving to strike the right balance between U S

values and interests The authors see Obama s foreign policy to date as a triumph of discipline and realism over ideology He has been neither the transformative beacon his devotees have wanted nor the weak apologist for America that his critics allege They conclude that his grand strategy for promoting American interests in a tumultuous world may only now be emerging and may yet be curtailed by conflict with Iran Most of all they argue that he or his successor will have to embrace U S economic renewal as the core foreign policy and national security challenge of the future

The Greatest Black Achievers in History Sylvia Lovina Chidi,2014-06-13 This book summarizes the lives of the great black people that have made great contributions to the lives of many Worldwide The book has brief detailed biographies of black activists scientists educators entertainers musicians inventors politicians authors sportsmen women and others who have surpassed the normal to make historical marks on society The biographical account of each individual provides relevant dates events and achievements by the individual There are pictures and excellent drawings that highlight particular moments in history This is one of the greatest pieces of work on black history and it will appeal to everyone including students groups universities libraries schools and anyone interested in history of black people in the World

Famous Assassinations in World History Michael Newton,2014-04-17 Representing a unique reference tool for readers interested in history criminology or terrorism this book provides the most complete and up to date coverage of assassinations of key figures throughout history and around the world Effecting the death of a political figure a leader of a nation or a public figure usually captures people s attention But how often is assassination effective to achieve the larger objective beyond the death of the targeted individual Famous Assassinations in World History An Encyclopedia offers more than 200 entries on assassinations of all kinds that will allow readers to grasp the often complex motivating factors behind each event and better understand historical and contemporary social unrest Each entry identifies the assassination target and summarizes that person s significance discusses the person s assassination including the factors that led up to it and its political and cultural contexts and explains the powerful effects of the assassination in world history The encyclopedia also includes various sidebars that spotlight relevant individuals groups and movements and present intriguing factoids such as the final disposition of notorious assassins weapons and various films and novels that were inspired by famous assassinations In addition 23 primary source documents provide accounts of assassinations throughout world history

A Cultural History of Comedy in the Modern Age Louise Peacock,2021-12-30 Drawing together contributions by scholars from a variety of fields including theater film and television sociology and visual culture this volume explores the range and diversity of comedic performance and comic forms in the modern age It covers a range of forms and examples from 1920 to the present day including plays film television comedy live comedy and comedy on social media It argues that the period covered was marked by an explosion of comic forms and a flowering of comic creativity across a range of media From the communal watching of silent films at the start of the period to the use of Twitter and other online platforms to share and comment on comedy technology has brought about significant

changes in its form consumption and social effects As comic forms have shifted and developed so too have attitudes to what comedy can and cannot do This study considers its role in entertainment and in provoking consideration of a range of social and political topics Each chapter takes a different theme as its focus form theory praxis identities the body politics and power laughter and ethics These eight different approaches to comedy add up to an extensive synoptic coverage of the subject

Civil Rights in American Law, History, and Politics Austin Sarat, 2014-02-13 This book charts the ambiguous and contested meanings of civil rights in law and culture confronting important questions about race in contemporary America

Obama's Time Morton Keller, 2014-12-01 This pioneering attempt at a historical perspective on the Obama presidency examines Obama's presidential persona and governing style his domestic and foreign policies and his place in the larger context of modern American politics It explores the reasons for the gap between what he sought and what he achieved and the larger political context in which this story unfolded

An American History Lesson and a Wake up Call for America Jack B. Walters, 2013-07-25 These articles and book reports have been written in the hope that readers could believe as I do that the world including our country is in great danger for multiple of reasons 1 The spread of adherents to Islam threaten to engulf all persons of different faiths They are winning through violence but also just by having more babies than every other culture The leaders of Europe and America refuse to accept how evil this belief system is and how they have only one agenda and that is to have dominion over all nations 2 Our Constitution has been destroyed by the administration of President Obama and the Supreme Court He does whatever he wants regardless of the Congress The Court extended the commerce authority to allow the government to force citizens to purchase a service and allowed the corporations to spend anything they want to affect the outcome of elections 3 We are drowning in debt but continue to add costly programs making it even worse without making any attempt to reduce the strain Military adventures continue without end Government handouts to the so called needy have created a permanent underclass of people being supported while not required to put forth effort 4 The government refuses to take the steps needed to become energy efficient which could be accomplished easily thereby freeing us from OPEC For those of you who don't remember in the 50s we exported oil
