Millennium Development Goals and India: Cases Assessing Performance, Prospects and Challenges R.K. Mishra, Jayasree Raveendran, 2011-06-06. The eight Millennium Development Goals identified in the Millennium Declaration have geared up the developing countries to translate their development vision into nationally owned plans. India's commitment to MDGs and the on going efforts present mixed results of accomplishments and setbacks. While there are expectations from India, South Indian states comprising Andhra Pradesh, Karnataka, Tamil Nadu and Kerala are identified as the states on fast track in terms of attaining the MDGs, though there are also issues that pull down and jeopardize the achievement of targets. This book documents case studies on various MDG focus areas such as poverty, issues of health, child labour, education, women empowerment and sustainable development with a specific reference to South Indian states apart from select studies of other Indian states. On these lines, the case studies assess the present status, point the missing link and give directions to the future. We hope that these cases will provide insights, pave way to constructive thinking and stimulate action oriented approaches in the efforts on achieving the Millennium Development Goals.

A Guide to the Procurement of Privately Financed Projects
Douglas Lamb, Tony Merna, 2004-09-27. A guide to the procurement of privately financed projects, an indicative assessment of the procurement process outlines the concept of privately financed projects (PFP) that can be used for both public private and private private interactions. Utilising models from many countries, the guide develops a robust procurement system applicable to PFP and project finance in both the EU and overseas. This guide provides a systematic approach for the preparation and evaluation of privately financed projects (PFP) and services. It is intended to assist both the Principal (often a public body) and the Promoter (private body) at each phase of the procurement process from inception through to financial closure. Principals using this guide should be able to adapt the private finance procurement process for their specific organisation and business sector. Moreover, in the case of the promoting organisation, the guide provides an appreciation of the steps that occur and the

various processes undertaken and the associated costs of bidding A guide to the procurement of privately financed projects an indicative assessment of the procurement process provides an invaluable understanding of the critical facets involved in PFP and suggests frameworks for developing objective orientated procurement elements **Image Processing in**

Wilson Ozuem, Michelle Willis, 2022-03-21 Online brand communities OBCs are hugely important in the development of marketing strategy but it is unclear how marketers can effectively utilise these platforms to enhance and develop consumer engagement For an online brand community to be successful it should allow members to feel a connection to the brand and with other members while forming a disconnection from those not belonging to the community It should also have rituals and traditions that join members together over a revered commonality and moral responsibility in contributing to the community Indeed brands play active roles in securing degrees of activity in OBCs through content that offers members the quality of engagement they seek This book focuses on contemporary digital marketing issues in OBCs offering a comprehensive examination of consumers response to active engagement in such communities It discusses how brands can tap into the various levels of participation engagement and online conversations in the development of marketing strategy and ultimately examines how an online brand community strengthens value co creation Balancing theory with practical approaches this book gives serious treatment to an important yet until now overlooked area of digital marketing strategy providing an important resource for scholars students and practitioners **Handbook on Economics of Discrimination and**
