The conference is meant to be a forum for presenting, discussing and comparing new tools and systems, standardization efforts, critical surveys, large experiments and case studies. At present we are still getting to know each other to understand the work done by other people and the potentialities offered by their work to our own research activity. However, the conference is rapidly acquiring scientific strength and academic interest, attracting more and more people and research groups and offering a challenging alternative to older, more conservative conferences.

July 2004: Andrea Asperti, Grzegorz Bancerek, Andrzej Trybulec.
