

Planning Ideas That Matter

Emilie Sanchez

Planning Ideas That Matter:

Planning Ideas That Matter Bishwapriya Sanyal, Lawrence J. Vale, Christina D. Rosan, 2012-07 Over the past hundred years of urbanization and suburbanization four key themes have shaped urban and regional planning in both theory and practice livability territoriality governance and reflective professional practice *Planning Ideas That Matter* charts the trajectories of these powerful planning ideas in an increasingly interconnected world The contributors leading theorists and practitioners discuss livability in terms of such issues as urban density land use and the relationship between the built environment and natural systems examine levels of territorial organization drawing on literature on regionalism metropolitanism and territorial competition describe the ways planning connects to policy making and implementation in a variety of political contexts and consider how planners conceive of their work and learn from practice Throughout the emphasis is on how individuals and institutions including government business professional organizations and universities have framed planning problems and ideas The focus is less on techniques and programs than on the underlying concepts that have animated professional discourse over the years The book is recommended for classroom use as a reference for scholars and practitioners and as a history of planning for those interested in the development of the field The hardcover edition does not include a dust jacket

Planning Ideas That Matter Bishwapriya Sanyal, Lawrence J. Vale, Christina D. Rosan, 2012-07-13 Leading theorists and practitioners trace the evolution of key ideas in urban and regional planning over the last hundred years

Planning Sustainable Cities and Regions Karen Chapple, 2014-09-15 As global warming advances regions around the world are engaging in revolutionary sustainability planning but with social equity as an afterthought California is at the cutting edge of this movement not only because its regulations actively reduce greenhouse gas emissions but also because its pioneering environmental regulation market innovation and Left Coast politics show how to blend the three Es of sustainability environment economy and equity *Planning Sustainable Cities and Regions* is the first book to explain what this grand experiment tells us about the most just path moving forward for cities and regions across the globe The book offers chapters about neighbourhoods the economy and poverty using stories from practice to help solve puzzles posed by academic research Based on the most recent demographic and economic trends it overturns conventional ideas about how to build more livable places and vibrant economies that offer opportunity to all This thought provoking book provides a framework to deal with the new inequities created by the movement for more livable and expensive cities so that our best plans for sustainability are promoting more equitable development as well This book will appeal to students of urban studies urban planning and sustainability as well as policymakers planning practitioners and sustainability advocates around the world

When Ideas Matter Bilal A. Baloch, 2021-10-07 Comparativist scholarship conventionally gives unbridled primacy to external material interests chiefly votes and rents as proximately shaping political behaviour These logics tend to explicate elite decision making around elections and pork barrel politics but fall short in explaining political conduct during

credibility crises such as democratic governments facing anti corruption movements In these instances Baloch shows elite ideas for example concepts of the nation or technical diagnoses of socioeconomic development dominate policymaking Scholars leverage these arguments in the fields of international relations American politics and the political economy of development But an account of ideas activating or constraining executive action in developing democracies where material pressures are high is found wanting Resting on fresh archival research and over 120 original elite interviews When Ideas Matter traces where ideas come from how they are chosen and when they are most salient for explaining political behaviour in India and similar contexts *Whose Ideas Matter?* Amitav Acharya,2011 Whose Ideas Matter is the first book to explore the diffusion of ideas and norms in the international system from the perspective of local actors with Asian regional institutions as its main focus **Planning Matter** Robert A. Beauregard,2015-11-03 City and regional planners talk constantly about the things of the world from highway interchanges and retention ponds to zoning documents and conference rooms yet most seem to have a poor understanding of the materiality of the world in which they re immersed Too often planners treat built forms weather patterns plants animals or regulatory technologies as passively awaiting commands rather than actively involved in the workings of cities and regions In the ambitious and provocative Planning Matter Robert A Beauregard sets out to offer a new materialist perspective on planning practice that reveals the many ways in which the nonhuman things of the world mediate what planners say and do Drawing on actor network theory and science and technology studies Beauregard lays out a framework that acknowledges the inevitable insufficiency of our representations of reality while also engaging more holistically with the world in all of its diversity including human and nonhuman actors alike

Ideas Matter John D. Gillespie,2014-09-26 IDEAS MATTER Considering Jesus Christ What you think about when you think about Jesus Christ is the most important thing about you Ideas matter We will never rise above our idea of God You cannot think wrong and live right If we are to live well then we must think well While we will never plumb the depths of Jesus Christ we can begin our journey of discovery here and now There is nothing more important to you or to our age than a genuine and growing encounter with the Jesus of the Bible Jesus Christ will make you and break you take you apart and put you together ruin you and fix you This is what Jesus does for He aims to make you fit for His service now and His Glory to come He is the only hope for the world He is the Big Issue Our generation thinks it has finished with Him but it will find that it has yet to begin with Him Here are thirty one letters about Jesus Christ They are written to make you think about and engage with truth Take these Letters as from John s heart to yours **Building** ,1920 *The Builder* ,1910-07 **Doing Science in Morning Meeting** Lara Webb,Margaret Berry Wilson,2013-05 Foster science learning with quick fun meaningful activities for kindergarten through 6th grade Increase students excitement about science deepen content knowledge and enhance science skills The activities are easy to set up require minimal materials and are flexible enough to use at any time of day Charts help you select activities by title grade level Morning Meeting component science content

science standards addressed and science discipline physical sciences life sciences Earth and space sciences and engineering technology and applications of science For each of the 150 activities you will get brief easy to follow directions open ended questions to help students reflect on their learning science content and standards covered key scientific vocabulary to reinforce ideas for variations and extensions when applicable

Wayfinding M. R. O'Connor, 2024-03-26 In this marvel of storytelling a journalist pursues the mysteries of human navigation across continents and deep within the brain Kirkus Reviews starred review Biologists have been trying to solve the mystery of how organisms have the ability to migrate and orient with such precision especially since our own adventurous ancestors spread across the world without maps or instruments In Wayfinding M R O Connor goes to the Arctic the Australian bush and the South Pacific to talk to masters of their environment who seek to preserve their traditions at a time when anyone can use a GPS to navigate O Connor explores the neurological basis of spatial orientation within the brain and how exercising our cognitive mapping skills can improve the health of our hippocampus She also talks to scientists studying how atrophy in the hippocampus is associated with afflictions such as impaired memory dementia Alzheimer s Disease depression and PTSD Wayfinding is a captivating book that charts how our species profound capacity for exploration memory and storytelling results in topophilia the love of place

Ideas Matter Richard English, Joseph Morrison Skelly, 2000 In Ideas Matter a wide array of Irish and international figures pay tribute to Conor Cruise O'Brien with a collection of original essays on a wide range of issues which fascinated O'Brien Irish history and politics the United Nations the Middle East African affairs American studies the interplay of literature and politics Edmund Burke deTocqueville Camus and W B Yeats They also reflect with admiration and affection on the highlights of a remarkable career The broad reach of these topics underscores the scope of O'Brien's concerns This book will be of interest to students of the humanities and political sciences

FISIP IDEAS MATTER 6.0 Dalam rangka Dies natalis FISIP ke-41 Universitas Airlangga "Society Against The Peril of Cyberspace: Creating Viable Strategies for Tomorrow's Terrain"

konsekuensi tertentu Oleh karena itu perlu dibentuk pemahaman yang tepat untuk melindungi masa depan masyarakat global agar mampu hidup berdampingan dengan cyberspace secara seimbang

Urban Policy in the Time of Obama James DeFilippis, 2016-11-08 With his background as a community organizer and as a state legislator representing Chicago's South Side Barack Obama became America's most urban president since Teddy Roosevelt But what has been his record in dealing with the issues most impacting our metropolitan areas today Looking past the current administration what are the future prospects of the nation's cities and how have they been shaped by our policies in this century Seeking to answer these questions the contributors to Urban Policy in the Time of Obama explore a broad range of policy arenas that shape both directly and indirectly metropolitan areas and urbanization processes This volume reveals the Obama administration's surprisingly limited impact on cities through direct policy initiatives such as Strong Cities Strong Communities Promise Neighborhoods and Choice Neighborhood Initiatives There has been greater impact with broader policies that shape urban life and governance including immigration reform education and health care Closing with Cedric Johnson's afterword illuminating the Black Lives Matter movement and what its broader social context says about city governance in our times Urban Policy in the Time of Obama finds that most of the dominant policies and policy regimes of recent years have fallen short of easing the ills of America's cities and calls for a more equitable and just urban policy regime Contributors Rachel G Bratt Tufts University Christine Thurlow Brenner University of Massachusetts Boston Karen Chapple University of California Berkeley James Fraser Vanderbilt University Edward G Goetz University of Minnesota Dan Immergluck Georgia Tech Amy T Khare University of Chicago Robert W Lake Rutgers University Pauline Lipman University of Illinois at Chicago Lorraine C Minnite Rutgers University Camden Kathe Newman Rutgers University Deirdre Oakley Georgia State Frances Fox Piven City University of New York Hilary Silver Brown University Janet Smith University of Illinois at Chicago Preston H Smith II Mount Holyoke College Todd Swanstrom University of Missouri St Louis Nik Theodore University of Illinois at Chicago J Phillip Thompson MIT
