Hands-On Science and Technology for Ontario, Grade 3 Jennifer E. Lawson, 2020-09-07 Experienced educators share their best classroom tested ideas in this teacher friendly activity based resource The grade 3 book is divided into four units Growth and Changes in Plants Strong and Stable Structures Forces Causing Movement Soils in the Environment STAND OUT COMPONENTS custom written for the Ontario curriculum uses an inquiry based scientific and technological approach builds understanding of Indigenous knowledge and perspectives TIME SAVING COST EFFECTIVE FEATURES includes resources for both teachers and students a four part instructional process activate action consolidate and debrief enhance an emphasis on technology sustainability and personalized learning a fully developed assessment plan for assessment for as and of learning a focus on real life technological problem solving learning centres that focus on multiple intelligences and universal design for learning UDL land based learning activities and Makerspace centres access to digital image banks and digital reproducibles Find download instructions in the Appendix of the book **Wild Learning** Rachel Tidd, 2023-04-11 Wild Learning answers a call in the educational community for practical easy to implement activities that bring core curriculum out of the classroom and into the outdoors Outdoor learning has risen in popularity in recent years and it has tremendous benefits Being outside is healthier helps children form a strong connection to the natural world supports a variety of learning styles increases engagement and motivation and improves mental health This book gives teachers practical activities that they can immediately implement and helps educators overcome common barriers to outdoor instruction These activities can be done in common outdoor spaces that are accessible to teachers in all school settings and they are adaptable to their current curriculum not an extra thing to try to fit into their day Get ideas for fun outdoor activities that cover core subject matter already being taught Take learning outside taking advantage of commonly accessible areas no matter the educational setting Help students develop a healthy appreciation of the outdoors and support hands on learning styles Support students physical and mental health without sacrificing learning time This book is a much needed resource for elementary and special education teachers as well as those in alternative schools forest schools and homeschooling parents **Growth and Changes in Plants** Jennifer Lawson, 2001 The 14 lessons in this module introduce students to the parts of a plant types of plants plant life cycles the needs of plants for survival and how plants are affected by seasonal changes and human behaviour Also included materials lists activity descriptions questioning techniques activity centre and extension ideas assessment suggestions activity sheets and visuals The module offers a detailed introduction to the Hands On Science program guiding principles implementation guidelines an overview of the skills that young students use and develop during scientific inquiry a list of children s books and websites related to the science topics introduced and a classroom assessment plan with record keeping templates Do You Believe In Magic? (A Wild Thing Book) Laura Krantz, 2024-10-08 Inspired by her popular Wild Thing podcast journalist Laura Krantz incorporates the scientific method and her journalistic skills to determine if magic

might be real in Do You Believe in Magic Magic spells and curses hexes and potions superstition and rituals We've all heard stories of alchemists attempting to turn abundant lead into precious rare gold Or of poor unfortunate souls asking potion masters to brew up unappetizing concoctions that will help them find love And of course we're familiar with curses muttering magical words for the purposes of exacting revenge on an enemy or protecting a hidden treasure Who wouldn't like the idea of special powers or control over the natural world It seems pretty fun even if it's just the stuff of fantasy books and movies But a lot of what we call magic has grounding in real practices In fact magic is at the root of many scientific fields from chemistry to botany to astronomy and has been an important part of human culture for thousands of years Do You Believe in Magic takes readers through a world where magic and science collide What do they have in common Where do they differ What role has magic played in our history and the history of science Why is magic still significant even when it doesn't seem to line up with reality And is it possible to be scientifically minded and still believe in magic Readers are encouraged to weigh the facts and go beyond their gut assumptions to stretch their imaginations and think about why magic and science might be two sides of the same coin Includes color illustrations an at home science magic experiment glossary bibliography and index A Wild Thing series The Search for Sasquatch Is There Anybody Out There Do You Believe in Magic

Hands-On Science and Technology, Grade 3 Jennifer Lawson, 2008-08-08 This teacher resource offers a detailed introduction to the Hands On Science and Technology program guiding principles implementation guidelines an overview of the science skills that grade 3 students use and develop and a classroom assessment plan complete with record keeping templates It also includes connections to the Achievement Levels as outlined in The Ontario Curriculum Grades 1-8 Science and Technology 2007 This resource has four instructional units Unit 1 Growth and Changes in Plants Unit 2 Strong and Stable Structures Unit 3 Forces Causing Movement Unit 4 Soils in the Environment Each unit is divided into lessons that focus on specific curricular expectations Each lesson has curriculum expectation s lists materials lists activity descriptions assessment suggestions activity sheet s and graphic organizer s Beneficial Microbiota Interacting with the Plant Immune System Christos Zamioudis, Corné M.
