Arrivals and Departures Otto Latva, Heta Lähdesmäki, Kirsi Sonck-Rautio, Harri Uusitalo, 2024-09-23 This book explores the human relationship to changing biodiversity by bringing together multidisciplinary insights into human nature relations from the humanities New animal and plant species arrive and previously existing ones may disappear However the historical and social perspectives of the changes have been understudied so far This book approaches the human relationship with

changing biodiversity from three different angles belonging and non belonging emotions and environmental policy The question of belonging and non belonging is crucial when it comes to changing biodiversity The authors ask who decides where species can move and live and when invasive becomes native Similarly emotions have a big role in human nature relations The book shows why we grieve the loss of some species and hate some other species and how our emotions change over time The writers also aim to show how environmental policies or the practice of governing species are affected by societal discussion emotions scientific research and topical concepts as well as how these policies shape biodiversity and our perceptions of different species The authors provide fresh insights into human nature relations and explain why we need multidisciplinary approaches in order to fully understand their complexity Animals, Plants and Afterimages Valérie Bienvenue, Nicholas Chare, 2022-03-11 The sixth mass extinction or Anthropocene extinction is one of the most pervasive issues of our time Animals, Plants and Afterimages brings together leading scholars in the humanities and life sciences to explore how extinct species are represented in art and visual culture with a special emphasis on museums Engaging with celebrated cases of vanished species such as the quagga and the thylacine as well as less well known examples of animals and plants these essays explore how representations of recent and ancient extinctions help advance scientific understanding and speak to contemporary ecological and environmental concerns **Medicinal Plants** Sanjeet Kumar, 2022-11-02 This book Medicinal Plants provides a comprehensive overview of plant species helpful for treating and preventing human diseases and disorders It also discusses how to obtain sustainable healthcare systems from nature and make harmony with currently available medicinal wealth ecology and the community **The People's Illustrated Dictionary of the English Language** Noah Webster, 1874 *Medicinal and Aromatic Plants of Turkey* Ákos Máthé, Kenan Turgut, 2023-11-01 This is meant to be the 10th volume of the series Medicinal and Aromatic Plants of the World Similarly to the previous volumes the work will deal in a monographic form with MAPs characteristic famous or simply known of Turkey a large country that is connecting Europe with Asia Turkey has extremely rich and varied topographic ecologic conditions As a result the flora of Turkey abounds in an astonishingly great number of endemic MAP species Traditional present and possible prospective uses will be discussed Scientific and technological achievements will be equally presented Briefly the volume is aimed to look carefully at our present knowledge of this vast interdisciplinary domain of medicinal and aromatic plants with a focus on Turkey In the era of global climate change and Covid pandemics building on the huge Turkish traditions the proposed volume of the series is expected to make an important contribution to the better knowledge and understanding of the MAP wealth of the World *Conservation Genetics in the Neotropics* Pedro M. Galetti Jr., 2023-08-29 This book explores how genetics and the new technologies in genomics have been used for conservation of plants and animals in the Neotropics It shows the new perspective for conservation genetics beyond the use of theoretical and methods in genetics at species level and presents how genetics and genomics can be used for assessing communities Conservation genetics and genomics are presented as a

helpful field of study for resolving taxonomic uncertainties and hidden biodiversity understanding populations and extinction risk genetic management wildlife forensic genetics assessing biology and molecular ecology assessing communities conservation genomics and the use of conservation biology and genetics in science learning highlighting case studies in the Neotropics Applications of conservation genetics for management or policy decision making planning and implementation of conservation practice in the Neotropics are addressed across chapters This book will interest to researchers and students in conservation genetics and biology conservation interested in the Neotropics Stakeholders and decision makers in conservation biology may also find this book useful **Exploring Traditional Wild Edible Plants** Vibhor

Agarwal,Sachidanand Singh,Rahul Datta,2025-02-11 Wild edible plants are native species that grow and reproduce naturally in their natural habitats without domestication These plants can serve as a healthier alternative to farmed crops that may be heavily laden with pesticides and other poisonous substances This book focuses on assessment of the nutritional value potential health benefits and mechanisms of action of various wild edible plants It presents information on nutrients and bioactive ingredients that can have health advantages including antioxidant properties antimicrobial anti inflammatory and antidiabetic effects Features Comprehensive exploration of potential benefits as well as side effects of wild edible plants Special emphasis is placed on diversity category and pharmacological values of wild edible plants Discusses challenges regarding the usage of wild edible plants such as overharvesting and habitat destruction safety and toxicity A volume in the Exploring Medicinal Plants series this book highlights bioactive compounds and therapeutic efficacies of various wild edible plant species It is useful reading for scientists researchers academia and plant scientists interested in the health benefits of wild edible plants *Ethnopharmacology and OMICS Advances in Medicinal Plants Volume 2* Mukesh Nandave,Rohit

Joshi,Jyoti Upadhyay,2024-10-16 This book delves into diverse facets and applications of medicinal plants It discusses the metabolic transcriptomic and genomic intricacies of medicinal plants shedding light on their chemical compositions genetic makeup and regulatory mechanisms It includes a chapter on nanotechnology investigating the influence of nanoparticles on medicinal plants Subsequent chapters explore functional genomics and genome editing showcasing innovative approaches to modifying plant genetics It also discusses plant associated microorganisms in the microbiome and endophytic fungi Furthermore the book addresses the critical issues of genetic diversity agrotechnology for sustainable production intellectual property rights and the impact of various stresses on medicinal plants This book serves as a valuable resource for researchers educators and students of pharmacology offering a comprehensive understanding of medicinal plants and their evolving role in science and medicine The Ecological and Societal Consequences of Biodiversity Loss Michel Loreau,Andy Hector,Forest Isbell,2022-02-11 The idea that changes in biodiversity can impact how ecosystems function has over the last quarter century gone from being a controversial notion to an accepted part of science and policy As the field matures it is high time to review progress explore the links between this new research area and fundamental ecological concepts and look

ahead to the implementation of this knowledge This book is designed to both provide an up to date overview of research in the area and to serve as a useful textbook for those studying the relationship between biodiversity and the functioning stability and services of ecosystems The Ecological and Societal Consequences of Biodiversity Loss is aimed at a wide audience of upper undergraduate students postgraduate students and academic and research staff Evolution and Speciation in Plants T.J.
