Plato was a student of the famous philosopher, Socrates.	While traveling, Plato wrote his more famous works called Plato's Dialogues. Socrates was usually the main character of Plato's writing. It is because of Plato that we know so much about the life and thinking of Socrates. After traveling and writing, Plato returned to Athens and opened a school called the Academy. Aristotle, a famous Greek scientist, was one of Plato's students at the Academy. Plato's writings are still studied by political science and philosophy students today.
