The Balanced Scorecard Robert S. Kaplan, 1996 *What to Ask the Person in the Mirror* Robert Steven Kaplan, 2011-07-12 Successful leaders know that leadership is less often about having all the answers and more often about asking the right questions The challenge lies in being able to step back reflect and ask the key questions that are critical to your performance and your organization s effectiveness In *What to Ask the Person in the Mirror* leadership expert Robert Kaplan presents a process for asking the big questions that will enable you to diagnose problems change course if necessary and advance your career He lays out areas of inquiry including questions such as Do I clearly articulate my vision and top priorities to my employees and key constituencies Does the way I spend my time enable me to achieve my top priorities Do I give subordinates timely and direct feedback they can act on Do I actively seek feedback myself Have I developed a succession roadmap Is my organization s design aligned with the achievement of its objectives Is my leadership style still effective and does it reflect who I truly am Packed with real life situations this highly readable and practical guide helps you learn to ask the right questions and work through the answers in ways that are right for you By asking these questions you can tackle the inevitable challenges of leadership as you craft new strategies for staying on top of your game What You Really Need to Lead Robert Steven Kaplan, 2015-08-11 WHAT MAKES A LEADER CAN YOU REALLY LEARN TO LEAD You might believe that leaders are born not made Perhaps you think that you need to hold an important job to be a leader that you need permission to lead Leadership is one of the most important aspects of our society Yet there is enormous disagreement and confusion about what leadership means and whether it can really be learned As Harvard Business School professor Robert Steven Kaplan explains in this powerful new book leadership qualities are not something you either have or you don t Leadership is not a destination or a state of being Leadership is about what you do rather than who you are and it starts with an ownership mind set For Kaplan learning to lead involves three key elements Thinking like an owner A willingness to act on your beliefs A relentless focus on adding value to others Kaplan compellingly argues that great organizations are built around a nucleus of people who think and act with an ownership mind set He believes that leadership is not a role reserved only for those blessed with the right attributes or situated in the right positions of power Leadership is accessible to each of us today It requires a process of hard work willingness to ask questions and openness to learning This book aims to demystify leadership and outlines a specific regimen that will empower you to build your leadership skills Kaplan tells real life stories from his own experience of working with various types of leaders seeking to improve their effectiveness and make their organizations more successful He asks probing questions provides exercises and suggests concrete follow up steps that will help you develop your skills create new habits and move you toward reaching your unique leadership potential *What You Really Need to Lead* will help you develop your capacity to lead by unlocking your power to think and act like an owner Balanced Scorecard Success: The Kaplan-Norton Collection (4 Books) Robert S.
