Marshall's organization is a relatively young organization. The members are expected to be 18 or older and have attained at least an intermediate-high-school or college degree. However, members need not be American or English. The members are 50% male and the number in the United States has been rising steadily. The members are 100% in support of the program, and have engaged in numerous service projects. As the organization continues, research, preparation of the proposed constitution, organizing the regional areas, and providing information will be a high priority for the future. It is intended that the organization will have an elected chairman, four regional directors, four state area chairs, and four general members. The general staff will include a secretary, treasurer and board member, and a communications director who will be the press and public relations officer.

Household expenditures across the border generally fell throughout 2011. But persistent unemployment and economic downturns in neighboring countries are expected to hit personal budgets hard in 2012, with the cost of the debt ceiling and recent spending cut adjustments and stimulus reducing the income needs along with the general budget situation. The adjustment, however, at the household level, however, is not expected to be as large as the government's. The debt ceiling and stimulus package will have a small impact on the economy, but the debt ceiling will have a larger impact on the economy, and the stimulus package will have a smaller impact on the economy.
