will be of relevance not only for scholarly readers but also for an interested non professional audience Correspondence on Christology and Grace Saint Fulgentius (Bishop of Ruspa),2013 St Fulgentius of Ruspe was perhaps the most brilliant

North African theologian in the era after St Augustine s death He wrote widely on theological and moral issues Between the years AD 519 and 523 Fulgentius engaged in correspondence with a group of Latin speaking monks from Scythia and that

correspondence is translated into English almost all of it for the first time in this volume The correspondence is significant because it stands at the intersection of two great theological discussions the primarily Eastern Christological controversies

between the Fourth Ecumenical Council in 451 and the Fifth in 553 and the largely Western Semi Pelagian controversy which ran from 427 to the Second Synod of Orange in 529 Contemporary Western scholars normally treat these controversies over

Christ and grace separately but there were noteworthy points of contact between the two discussions and Fulgentius and the Scythian monks were the ones who drew the connections between Christology and grace most strongly These connections

suggest that we today may do well to treat Christology and grace more as two sides of the same coin than as separate theological issues Both sets of issues deal fundamentally with the relation between God and humanity Christological

questions ask how the divine and human are related in the person of the Savior and grace related questions ask how the divine and human are linked in the conversion Christian life and final salvation of each Christian Thus Fulgentius s

correspondence with the Scythian monks can do more than simply aid understanding of sixth century Byzantine Roman

theology It can also contribute to our contemporary thinking on the relation between two of the Christian faith's most central doctrines ABOUT THE TRANSLATORS Rob Roy McGregor is professor emeritus of French and Latin at Clemson University and former professor of ancient languages at Erskine Theological Seminary Among his publications are *The Lyric Poems of Jehan Froissart A Critical Edition* and with Harry E Stewart *Jean Genet A Biography of Deceit 1910-1951* Donald Fairbairn who also wrote the introduction and notes for this volume is the Robert E Cooley Professor of Early Christianity at Gordon Conwell Theological Seminary His books include *Understanding Language A Guide for Beginning Students of Greek and Latin* CUA Press and *Grace and Christology in the Early Church*

Shadows of Doubt Stefania Tutino, 2013-12-23 Named a Book of the Year by History Today In a compelling examination of the hermeneutical and epistemological anxieties gripping both the early modern and our current world Stefania Tutino shows that post Reformation Catholicism did not simply usher in modernity but postmodernity as well This deft study provides new insight into and a fresh perspective on the context of the Protestant Reformation and the Catholic response to it *Shadows of Doubt* provides a collection of case studies centered on the relationship between language the truth of men and the Truth of theology Most of these case studies illuminate little known figures in the history of early modern Catholicism While the militant aspects of post Tridentine Catholicism can be appreciated by studying figures such as Robert Bellarmine or Cesare Baronio who were the solid pillars of the intellectual and theological structure of the Church of Rome an understanding of the more fragile and shadowy aspects of early modernity requires an exploration of the demimonde of post Reformation Catholicism Tutino examines the thinkers whom few scholars mention and fewer read demonstrating that post Reformation Catholicism was not simply a world of solid certainties to be opposed to the Protestant falsehoods but also a world in which the stable Truth of theology existed alongside and contributed to a number of far less stable truths concerning the world of men Post Reformation Catholic culture was not only concerned with articulating and affirming absolute truths but also with exploring and negotiating the complex links between certainty and uncertainty By bringing to light this fascinating and hitherto largely unexamined side of post Tridentine Catholicism Tutino reveals that post Reformation Catholic culture was a vibrant laboratory for many of the issues that we face today it was a world of fractures and fractured truths which we with a heightened sensitivity to discrepancies and discontinuities are now well suited to understand

Thomas Aquinas Frederick Christian Bauerschmidt, 2013-08-29 Thomas Aquinas is widely recognized as one of history's most significant Christian theologians and one of the most powerful philosophical minds of the western tradition But what has often not been sufficiently attended to is the fact that he carried out his theological and philosophical labours as a part of his vocation as a Dominican friar dedicated to a life of preaching and the care of souls Fererick Christian Bauerschmidt places Aquinas's thought within the context of that vocation and argues that his views on issues of God creation Christology soteriology and the Christian life are both shaped by and in service to the distinctive goals of the Dominicans What Aquinas says concerning both matters of faith and matters of reason

as well as his understanding of the relationship between the two are illuminated by the particular Dominican call to serve God through handing on to others through preaching and teaching the fruits of one's own theological reflection **From San Juan to Paris and Back** Edward J.
