Justice at the Heart of Liturgy Bryan Cones, 2015-08-01 The connection between liturgy and justice has long been assumed Faithful celebration of Eucharist would lead to just sharing of the fruit of the earth and the work of human hands Baptizing persons of every people and nation would yield societies in which each person treats another as a treasured image of God Regular faithful engagement with scripture would shape

followers of Jesus into living words within the Word Yet centuries of Christian practice and decades of reflection on the connection between liturgy and justice continue to produce broken human relationships shaped by colonisation disparities based on colour and culture and nature broken by a climate crisis worked by human hands To Nevertheless essays in this collection seek to engage the unresolved tension between the world in which humanity lives and the one proposed in Christian common prayer Gerard Moore asks if the law of prayer that guides assemblies is tainted by an imperial shape that impairs its witness Anita Monro laments a lack of honesty in so many Christian gatherings where confession and lament are absent not least when assemblies gather on stolen land Stephen Burns responds to their prompts by proposing patterns that might steer common prayer toward more authentic kingdom scenes that signal God's dominion Annie Brophy applies such wisdom to her own Uniting Church in Australia asking whether its resources for prayer measure up to that church's stated commitment to justice in the matter of gender and reconciliation with Australia's First Peoples Jason McFarland and Angela McCarthy report on ecumenical efforts underway to right the relationship between human bodies at prayer and the continuous praise of the rest of creation Might an ecumenical Feast of Creation be a step in that direction Like so many questions posed by contributors to this volume the path to joining liturgy and justice walking hand in hand remains unclear

academics teachers and students of church history and theology as well as for the general reader *Religion and Memory in Tacitus' Annals* Kelly E. Shannon-Henderson, 2018-12-12 Throughout his narrative of Julio Claudian Rome in the *Annals* Tacitus includes numerous references to the gods fate fortune astrology omens temples priests the emperor cult and other religious material Though scholars have long considered Tacitus discussion of religion of minor importance this volume demonstrates the significance of such references to an understanding of the work as a whole by analyzing them using cultural memory theory which views religious ritual as a key component in any society's efforts to create a lived version of the past that helps define cultural identity in the present Tacitus who was not only an historian but also a member of Rome's quindecimviral priesthood shows a marked interest in even the most detailed rituals of Roman religious life yet his portrayal of religious material also suggests that the system is under threat with the advent of the principate Some traditional rituals are forgotten as the shape of the Roman state changes while simultaneously a new form of cultic commemoration develops as deceased emperors are deified and the living emperor and his family members are treated in increasingly worshipful ways by his subjects This study traces the deployment of religious material throughout Tacitus narrative in order to show how he views the development of this cultic amnesia over time from the reign of the cryptic autocratic and oddly mystical Tiberius through Claudius failed attempts at reviving tradition to the final sacrilegious disasters of the impious Nero As the first book length treatment of religion in the *Annals* it reveals how these references are a key vehicle for his assessment of the principate as a system of government the activities of individual emperors and their impact on Roman society and cultural identity *The Autonomous Administration of North and East Syria: Between A Rock and A Hard Place* Thomas Schmidinger, 2020-11-28 This book is based on papers presented at the conference However it is not a typical publication of academic conference proceedings because the topics are not completely congruent with those of the conference Some lectures that could not be held due to travel restrictions related to the coronavirus pandemic were submitted as book contributions In addition I also wrote a short contribution on the Jewish history of the region which has been often neglected in previous presentations of the region The various authors for this volume have been intensively involved with the region in recent years However the authors do not only focus on the situation on the ground but also on the international context of the autonomous administration The conflict in Syria is no longer just a civil war but a transnational conflict with important roles played not only by actors such as Russia or the USA but also Turkey or Iran Given the transnationality of the conflict and the role of the hegemonic powers these authors share thoughtful analyses from very different perspectives It is important to share these diverse views with the world so that the tragic conflict might become more comprehensible This does not mean however that I necessarily advocate each particular position taken by the varied contributors to this book The intent is to offer you multiple perspectives and certainly not a common narrative *The Statesman's Yearbook 2016* Nick Heath-Brown, 2017-02-07 Now in its 152nd edition The Statesman's Yearbook continues to be the reference work of choice
