John L. Cogan, Murray Print, 2013-12-02 This book examines the approach to civic education in six societies located on the Pacific Rim Australia Japan Hong Kong Taiwan Thailand and the US In these scrupulously designed studies the contributors investigate the recent re emergence of civic education in this region Developments such as globalization nationalism and sovereignty have profound effects on how schools make good citizens These essays reveal how definitions of citizenship are contested and revised under such influences and interrogate differences in civic education from nation to nation As societies attempt to strike a balance between obedience and critical thinking schools become the primary site of these transformations Analyzing both educational policy and its implementation these contributors offer a groundbreaking comparative study that grounds civic education historically and politically General Catalog Iowa State University, 1987 **Diagrams in Civic Education** Janne Holmén, Ann-Sofie Jägerskog, Daniel Schumann, Malin Tväråna, 2024-08-28 This book presents the findings of three studies on the use of diagrams in civic education The first study presents an international comparison of textbook diagrams promoting national unity in diversity with examples from ten countries The second focuses on the depiction of migration in diagrammatic form in German textbooks The final study was conducted in collaboration with teachers in Swedish social science classrooms and focuses on teaching comprehension of flow charts and scatterplots The book will be of interest to scholars of educational media didactics the history of education and citizenship education **Canal Record**, 1911 Canal Record, Published Weekly Under Authority and Supervision of Isthmian Canal Commission, 1911 *The Public General Acts ... and the Church Assembly Measures* Great Britain, 1951 *Principles and Practices of Secondary Education* Vernon Ellsworth Anderson, 1951 **The Public General Acts and General Synod Measures** Great Britain, 1972 **Childhood, Learning & Everyday Life in Three Asia-Pacific Cities** I-Fang Lee, Sue Saltmarsh, Nicola Yelland, 2023-04-17 This book introduces findings from an international cross cultural and interdisciplinary study of children s everyday experiences of growing up and going to school in the context of the three global cities of Hong Kong Singapore and Melbourne It takes the premise that children s learning and orientations to educational success are shaped by everyday cultural practices at home and at school by policy contexts that both produce and respond to educational and cultural norms and by individual and familial desires and aspirations Drawing on research conducted with primary school aged children in Year 4 the book considers how day to day routines such as going to school engaging in extra curricular activities outside of school and spending time at home with family intersect with the broader milieus of education policy ideals in a changing and interconnected world Through a combination of visual methodologies surveys ethnographic observations in schools classrooms and cityscapes re enactments of everyday activities with children at home and sociological education policy analysis this book shows both the richness of children s everyday lives and learning in global cities as well as exploring

questions that pose challenges to educational and social norms
