Soeters,Jan Van der Meulen,2007-01-24 This volume explores ethnicity and gender developments in relation to the military In some countries the armed forces have a long history in responding to ethnic diversity while elsewhere it has come up only recently as a policy issue An even handed representation of ethnic minorities in the military is recognized as crucial for enhancing its social legitimacy and professional quality The same can be said about the integration of women in the military which during a few decades across the board has grown into more than just another issue of personnel policies Indeed with regard to gender the symbolism and sensitivities
