World War I and World War II both had a huge impact on the modern world. Readers explore the history of these wars in a very creative way through making crafts inspired by these events in American history. Readers learn about different styles of warfare as they make their own periscopes and they learn about the role the United States played in each conflict as they make their own war posters. These projects are accompanied by enlightening text including helpful sidebars and fact boxes. Photographs from this period in history engage readers with each turn of the page.

Seaforth World Naval Review 2023

Conrad Waters, 2022-12-12 For over a decade this annual has provided an authoritative summary of all that has happened in the naval world in the previous twelve months, combining regional surveys with one-off major articles on noteworthy new ships and other important developments. Besides the latest warship projects, it also looks at wider issues of significance to navies such as aviation and weaponry and calls on expertise from around the globe to give a balanced picture of what is going on and to interpret its significance. As 2022 saw the outbreak of the first major European war since 1945, it is not surprising that the naval aspects of the conflict in Ukraine take center stage, with an interim assessment of the fighting so far and what can be gleaned of the strategies and tactics of the warring parties. Another newsworthy topic, hypersonic missiles, is the subject of Norman Friedman's expert analysis. Of the regular features, the Significant Ships cover the US Navy's Nimitz-class carriers, now representing fifty years of evolution, and HMNZS Aotearoa, the largest warship built for New Zealand. Of the Fleet Reviews, one looks at the US Navy's adaptation to the return of Great Power competition, not least with China, and the second covers the Vietnam People's Navy, which faces Chinese pressure at close quarters. Firmly established as the only

annual naval overview of its type World Naval Review is essential reading for anyone whether enthusiast or professional interested in contemporary maritime affairs *Tracking marine megafauna for conservation and marine spatial planning*
