Julio Capó Jr., 2017-10-03 Poised on the edge of the United States and at the center of a wider Caribbean world today's Miami is marketed as an international tourist hub that embraces gender and sexual difference As Julio Capó Jr shows in this fascinating history Miami's transnational connections reveal that the city has been a queer borderland for over a century In chronicling Miami's queer past from its 1896 founding through 1940 Capó shows the multifaceted ways gender and sexual renegades made the city their own Drawing from a multilingual archive Capó unearths the forgotten history of fairyland a marketing term crafted by boosters that held multiple meanings for different groups of people In viewing Miami as a contested colonial space he turns our attention to migrants and immigrants tourism and trade to and from the Caribbean particularly the Bahamas Cuba and Haiti to expand the geographic and methodological parameters of urban and queer history Recovering the world of Miami's old saloons brothels immigration checkpoints borders nightclubs bars and cruising sites Capó makes clear how critical gender and sexual transgression is to understanding the city and the broader region in all its fullness **Reading(s) / across / Borders**, 2020-03-23 This collection emphasizes a cross disciplinary approach to the relevance of borders and bordering as a spatial paradigm in Anglophone studies It sets out to provide a critical counter narrative to the 1990s globalization argument of a borderless world by insisting on the significant roles borders play The

essays range in subject matter from geography history British and American literature to painting and Reggae music and map out different conceptualisations of the border place line process contact zones etc The volume s cross border narrative serves as a point of communication between the local and the global between Europe and America between different literary and artistic genres thus challenging the divides of geography and literature between real territorial borders and their fictional counterparts

Red Earth Nation Eric Steven Zimmer,2024-08-13 In 1857 the Meskwaki Nation purchased an eighty acre parcel of land along the Iowa River With that modest plot secured as a place to rest and rebuild after centuries of devastation and dispossession the Meskwaki or Red Earth People began to reclaim their homeland an effort that Native nations continue to this day in what has recently come to be called the Landback movement Red Earth Nation explores the long history of Landback through the Meskwaki Nation s story one of the oldest and clearest examples of direct purchase Indigenous land reclamation in American history Spanning Indigenous environmental and political history from the Red Earth People s creation to the twenty first century Red Earth Nation focuses on the Meskwaki Settlement now comprising more than 8 000 acres this is sovereign Meskwaki land not a treaty created reservation Currently the largest employer in Tama County Iowa the Meskwaki Nation has long used its land ownership and economic clout to resist the forces of colonization and create opportunities for self determination But the Meskwaki story is not one of smooth or straightforward progress Eric Steven Zimmer describes the assaults on tribal sovereignty visited on the Meskwaki Nation by the local state and federal governments that surround it In these instances the Meskwaki Settlement provided political leverage and an anchor for community cohesion as generations of Meskwaki deliberately and strategically though not always successfully used their collective land ownership to affirm tribal sovereignty and exercise self determination Revealing how the Red Earth People have negotiated shifting environmental economic and political circumstances to rebuild in the face of incredible pressures Red Earth Nation shows that with their first eighty acre land purchase in the 1850s Meskwaki leaders initiated a process that is still under way Indeed Native nations across the United States have taken up the Landback cause marshaling generations of resistance to reframe the history of Indigenous dispossession to explore stories of reclamation and tribal sovereignty

Inlands Robert S. G. Fletcher,Alec Zuercher Reichardt,2024-12-31 Conventional narratives of empires and globalization focus on oceans and coasts supposing that global connections are seaborne and that historical change proceeds inward from port cities into continental expanses This book offers a new perspective examining key inland areas around the world to show how interior regions have shaped global history Inlands brings together an interdisciplinary group of experts to explore the modern histories of inland regions across North and South America Africa Eurasia and Australasia from the American heartland to the Yangzi valley the Great Dismal Swamp to the Arabian Desert Together they argue that interior regions provide a fresh vantage point from which to rethink the history of global connection and

disconnection Each chapter reconsiders national regional or imperial histories from an inland perspective demonstrating how such places have spurred global change Contributors reveal the critical role inlands and their Indigenous inhabitants have played in the development projection and contestation of state power showing how some interiors became essential to empire even as others developed in resistance to it By examining the struggle to integrate inland regions into wider networks of exchange this book also sheds light on the unevenness and the limits of contemporary globalization A new global history of interior spaces Inlands presents a bold challenge to dominant understandings of the making of today's connected world
