VIVA M A C Andrea Benoit, 2019-04-18 The first cultural history of the iconic brand M A C Cosmetics VIVA M A C charts the evolution of M A C's revolutionary corporate philanthropy around HIV/AIDS awareness. Drawing upon exclusive interviews with M A C co-founder Frank Toskan, key journalists, and fashion insiders, Andrea Benoit tells the fascinating story of how M A C's unique style of corporate social responsibility emerged from specific cultural practices rather than being part of a strategic marketing plan. Benoit delves into the history of the M A C AIDS Fund and its signature VIVA GLAM fundraising lipstick, which featured drag performer RuPaul and singer kd lang in its first advertising campaigns. This lively chronicle reveals how M A C managed to not only defy the stigma associated with AIDS that alarmed many other corporations but to engage in highly successful AIDS advocacy while maintaining its creative and fashionable authority.

Experiencing Cities Mark Hutter, 2015-12-22 This extraordinary text for undergraduate urban students is a reflection of Mark Hutter's academic interests in urban sociology and his life-long passion for experiencing city life. His deep academic roots in the Chicago School of Sociology help inform and appreciate the variety of urban structures and processes and their effect on the everyday lives of people living in cities. This text, however, extends the Chicago School perspective by combining its traditions with a social psychological perspective derived from symbolic interaction and also with a macro-level examination of social organization, social change, stratification, and power in the urban context, informed by political economy. This entirely new 3rd Edition has a global outlook on city life and a visual presentation unmatched among books in this genre.

You've Gotta Have Heart Cass WHEELER, 2009-01-31 We all know that the definition for success in the corporate world is fairly straightforward. To be considered great companies first need to turn a profit. For organizations in the social sector, however, the challenge is much bigger. To be truly effective, they must stay relevant and, above all, stay true to their mission. For the past thirty-five years, Cass Wheeler has ensured that the American Heart Association has fulfilled its calling to save lives and educate the public about heart disease by adopting some of the same strategies used in the for-profit sector. In *You've Gotta Have Heart*, he shows people at all levels of a nonprofit how to make sure their hard work really pays off. Using examples of some of the American Heart Association and others, Wheeler reveals the leadership skills that will help employees, volunteers, and board members excel at their jobs, become good role models, and build a more visionary, creative, and disciplined nonprofit organization. Readers will discover why a mission

statement is not the same as a sense of mission the characteristics of successful nonprofit leaders how to combine the nonprofit mission with the management lessons of the business world how to define an organization s core values and business model Filled with honest practical and thoughtful lessons from the author s own experience this book will ensure that nonprofits of every size continue to do great and be great [Billboard](#) ,1953-02-21 In its 114th year Billboard remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends **Look at This** Adrian Shaughnessy,2006-11-02 Printed brochures catalogs and multi page documents form the bedrock of many graphic designers daily practice Most printed literature is disposable today s hot communication document is tomorrow s landfill But the best brochures catalogs and documents have a permanence and organic completeness that has become essential in this ephemeral and increasingly electronic world of instant communications This book features the best of contemporary printed literature design It offers a critical survey of current work by leading practitioners from the U S Europe and the Far East Arranged in a designer by designer format and accompanied by interviews this book offers a complete and informative picture of this popular subject [Billboard](#) ,1954-05-01 In its 114th year Billboard remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends *This Is Me* Ian Thorpe,2012-10-25 Ian Thorpe s achievements in the water are nothing short of phenomenal He has won a record holding eleven World Championship titles and ten Commonwealth Games gold medals He has broken twenty two world records and won five gold three silver and one bronze Olympic medals Having been under the spotlight since a young teenager Ian retired from competitive swimming in 2006 due waning interest but six years later he is mounting a comeback for London 2012 and intense media attention has followed Ian is one of the world s most prolific sportsmen but it is the way he has managed his success and his commitment to helping others that has earned him respect and admiration internationally Thorpe s autobiography follows him all the way from his childhood in Sydney right back up to the pinnacle of London 2012 This is a man who has had highs and lows away from the pool who has led an extraordinary life of an elite athlete that most of us will never know and who has the courage to come back and stake his claim for the ultimate goal once more *The Intellectual Property of Textiles and Fashion: From the Medieval Loom to the New York Fashion Week* Nuno Pires de Carvalho,2021-09-20 Rampant global counterfeiting has led the fashion industry to seek ever greater enforcement of its intellectual property IP rights Yet as this hugely informative book shows this is not new Fashion designers and entrepreneurs as well as manufacturers and tradespeople in the broader textiles industry from which fashion springs have always struggled to convert existing IP rules to an industry that was and is configured by the pressure of intrinsically fleeting consumer tastes

and trends The distinguished author adding to the series of major works that have made him a leading authority on IP law triumphantly reveals in great detail how society has constructed IP in association with textiles so as to accommodate it to the particular characteristics of fashion that emerged in the last century More than two hundred sources many of them for the first time available in English illustrated with fifty figures allow the reader to directly encounter those who have made and continue to make the IP of textiles and fashion The underlying reasons of such aspects as the following become brilliantly clear how fashion designers protect their creations against the spread of knock offs how fashion entrepreneurs appropriate prestige and reputation how an iconic design becomes a brand or acquires secondary meaning and how such inventions as the sewing machine and the cotton gin affected IP rights in textiles and fashion Each source is preceded by a note placing it in its social economic and legal context The sources are structured in two chapters business identifiers trade and certification marks geographical indications and appropriation of knowledge and creativity patents designs copyright and trade secrets so as to permit an easy understanding of the enchainment of important moments that have contributed to give IP for textiles and fashion its special configuration in particular the transition from textile law to fashion law With this book listening directly to the voices of those who have made and make IP academics students magistrates professionals and the legal community as a whole will have a clear and realistic sense of how the combination of the entrepreneurial spirit with the imperatives of human consumption has designed and continues designing the special scope and limits of IP as applied to textiles and fashion
