on a Texas journey as she explores the state's foodways through heirloom recipes. In this collection of more than one hundred third generation and older recipes Texans share not only the delicious dishes they inherited from their ancestors but the stories and traditions that accompany them. With a strong focus on Texas cultural diversity recipes include Norwegian rosettes, Italian pizzelle, Czech sauerkraut, Chinese fried rice, Mexican caldo, Wendish noodles, and African American purple hull peas. McKey documents the culinary impact of ethnic groups from around the globe. But this book is not for foodies alone; history enthusiasts will appreciate the snapshots of daily Texas life captured in the narratives accompanying recipes that span more than a century. Told primarily in the words of today's cooks, these multigenerational family recollections can take anyone on a trip down memory lane back to a beloved grandmother's kitchen or a great aunt's holiday table. Additionally, McKey provides tips for preserving your own family recipes and for recording the heritage surrounding a special dish. She also includes recommendations for festivals and museums where readers can learn more about Texas foods and cultures. Illustrated with family photos and original watercolors by Cora McKown, *From Tea Cakes to Tamales: Third Generation Texas Recipes* will itself quickly become a Texas family heirloom. Religion, Food, and Eating in North America Benjamin E. Zeller, Marie W. Dallam, Reid L. Neilson, Nora L. Rubel, 2014-03-11. The way in which religious people eat reflects not only their understanding of food and religious practice but also their conception of society and their place within it. This anthology considers theological foodways, identity foodways, negotiated foodways, and activist foodways in the United States, Canada, and the Caribbean. Original essays explore the role of food and eating in defining theologies and belief structures, creating personal and collective identities, establishing and challenging boundaries and borders, and helping to negotiate issues of community, religion, race, and nationality. Contributors consider food practices and beliefs among Christians, Jews, Muslims, and Buddhists, as well as members of new religious movements. Afro-Caribbean religions, interfaith families, and individuals who consider food itself a religion. They traverse a range of geographic regions from the Southern Appalachian Mountains to North America's urban centers and span historical periods from the colonial era to the present. These essays contain a variety of methodological and theoretical perspectives emphasizing the embeddedness of food and eating practices within specific religions and the embeddedness of religion within society and culture. The volume makes an excellent resource for scholars hoping to add greater depth to their research and for instructors seeking a thematically rich, vivid, and relevant tool for the classroom.
