

Combating climate change: We are in it together

Tian Qi

GUEST COLUMNIST

THE FIRST part of the 15th meeting of the Conference of the Parties to the Convention on Biological Diversity, known as COP15, was successfully held in Kunming, China, in mid-October 2021. The meeting adopted the Kunming Declaration and called upon all parties to take actions to jointly build a community of all life on Earth.

China announced that it would invest 1.5 billion yuan (about US\$220 million) to establish the Kunming Biodiversity Fund to support biodiversity protection in developing countries, which also contributes to global efforts against climate change. The 26th session of the Conference of the Parties of the UN Framework Convention on Climate Change, known as COP26, will take place in Glasgow, United Kingdom, starting from the end of this month. The international community pays great attention to the COP26 and eagerly looks forward to its success.

The impacts of climate change have been more and more obvious in recent years, imposing serious threats to all countries, especially the small island developing states (SIDS). The international community has fully recognized that climate change is a common challenge for all and a required question in our time. No country could combat climate change on its own or could be immune from the impacts of climate change. The only way out is to synergize

This combination of 2020-2021 photos shows a burning tree in Sequoia National Forest, Calif.; Nathan Fabre, whose home and boat were destroyed by Hurricane Ida in Lafitte, La.; and the cracked, dry bottom of the Cerro Lagoon during an extended drought in Limpio, Paraguay. Climate change is fueling heat waves, flooding, drought and faster tropical cyclones. AP

the efforts of all countries, including China and SIDS, to combat it.

COMMITTED TO SUSTAINABLE DEVELOPMENT

China is committed to the path of green, low-carbon, and sustainable development and firmly implements the Paris Agreement on climate change. As an active participant and contributor to global response to climate change, China has embedded ecological civilization in its integrated economic and social development plan. China has been committed to peaking its carbon

dioxide emissions before 2030 and achieving carbon neutrality before 2060 and will not build new coal-fired power projects abroad. China's carbon intensity has been reduced by 48.4% in 2020 from the 2005 level and will be reduced by over 65% in 2030. China will also step up its efforts investing wind and solar power and other renewable energy projects. Realizing the aforementioned goals is a necessary step for China to achieve sustainable and high-quality development and reveals China's willingness to take up its responsibilities as a major

global player to make greater contributions to global response to climate change. Achieving these goals will be no walk in the park, and it will take arduous efforts.

Jamaica plays an active and important role in combating climate change. In his remarks to the Leaders Summit on Climate and the General Debate of the 76th session of the United Nations General Assembly, both held this year, Prime Minister Andrew Holness called upon the international community to provide financial and technological supports and more help in

capacity building to SIDS. China understands and supports the reasonable demands of Jamaica and other SIDS and is willing to work with Jamaica to urge developed countries to honour their commitment of providing climate finance of US\$100 billion to developing countries annually. Meanwhile, combating climate change must adhere to multilateralism, uphold the principles of "common but differentiated responsibilities", equity, and respective capabilities, and respect the need for development and the special conditions of developing countries. Developed

countries bear historical responsibility for climate change. They should take the lead in substantially reducing emissions and live up to their commitments with concrete actions.

SOUTH-SOUTH COOPERATION

Enhanced South-South cooperation is also needed in combating climate change. For a long time and within its capability, China has been providing supports in various forms such as projects, building materials, and technologies assistance and human resource development to other developing countries, especially SIDS, African countries, and the least developed countries (LDCs) to strengthen their capacity in combating climate change. In 2015, China announced the establishment of a 20-billion-yuan (about US\$3 billion) South-South Climate Cooperation Fund and the plan to set up 100 pilot low-carbon industrial parks and start 100 climate mitigation and adaptation programmes in other developing countries. China also conducts South-South climate cooperation under the Belt and Road Initiative. I believe that there is huge potential and bright prospects for China and Jamaica to jointly combat climate change under the framework of South-South cooperation.

Let us take the upcoming COP26 as a good opportunity to peak all parties to transform their climate goals into concrete policies and actions and work together to combat climate change as the Earth is our common home and humankind is a community with a shared future. China stands ready to work together with Jamaica to deliver a successful COP26 so as to inject new momentum into global response to climate change and promote a fair and equitable system of global climate governance for win-win cooperation.

Newspaper Articles About Change Introduction

In today's digital age, the availability of Newspaper Articles About Change books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Newspaper Articles About Change books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Newspaper Articles About Change books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Newspaper Articles About Change versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Newspaper Articles About Change books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Newspaper Articles About Change books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Newspaper Articles About Change books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Newspaper Articles

About Change books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Newspaper Articles About Change books and manuals for download and embark on your journey of knowledge?
