Games Without Frontiers Aki Järvinen,2009 *Literature, Videogames and Learning* Andrew Burn,2021-06-29 This innovative book explores links between literature and videogames and how designing and playing games can transform our understanding of literature It shows how studying literature through the lens of videogames can provide new insights into narrative and creative engagement with the text The book sets

out theories of narrative aesthetics and multimodality in literature and videogames alongside models of literacy needed for such cultural and creative engagement It goes on to examine game adaptations of children's literature and a series of videogames made by students based on Beowulf and Macbeth In each case the book considers ways in which the original text has been transformed by the process of game design and what fresh light this casts on the literary narrative It also considers what kind of learning creative production and cultural engagement is apparent in the game designs and emphasises the importance of treating games as a narrative medium in their own right With a unique approach to the aesthetics of narrative in literature and videogames the book will be of great interest to researchers academics and post graduate students in the fields of literature pedagogy and game studies
