2011 NIOSH Report

A new report from NIOSH predicts that the *national demand for occupational safety and health services will far exceed the number of professionals with the necessary training, education, and experience to provide them.* The conclusion is based on a national survey.

While employers plan to hire at least 25,000 OSH professionals in the next five years, only about 12,000 new graduates are expected from the academic programs that fill the need. According to NIOSH, these hiring estimates include new or replacement positions.
