Boylan, Judith Scott, Christin M. Jungers, 2013-07-04

Completely revised and updated, the fourth edition of **Practicum and Internship** carries on the tradition of the previous editions as a popular and highly useful textbook and resource guide. It continues to be a comprehensive resource for students and their supervisors throughout the counseling and psychotherapy process, providing thorough coverage of both the theoretical and practical aspects of the practicum and internship process. This text guides students through the important pre-professional training experiences from the selection of an appropriate practicum site to the final evaluation of the internship. Organizing the content into four sections for clarity and ease of use, the authors discuss all the relevant information regarding the practicum experience, preparation for the internship, the internship experience, and evaluation, and important ethical and legal considerations. New in this edition are a listing and description of the various counseling theories and techniques, a section on crisis intervention and response, detailed guidelines for school mental health consultation, and forms for evaluating performance, cognitive and consulting skills. Forms are provided at the end of the book for the student's use in site selection, assessment, client treatment, and performance feedback and evaluation. These forms are also included in electronic format on an accompanying CD to allow students to modify and reuse them. **A Guide to Practicum and Internship for School Counselors-in-Training** Joel F. This text covers all aspects of the practicum and internship experience from the initial contact with your supervisor to detailed descriptions of each of the different roles you will have and will help you gain an understanding of the school culture and how to begin thinking about and developing your own philosophy of school counseling. Specific topics covered include popular counseling theories used by school counselors, working with special populations of students, application of the ASCA ethical standards, the administration of day-to-day tasks such as arranging an office space and managing your time, and elements of the guidance curriculum including individual student planning, responsive services, and systemic support. Each chapter contains activities, case studies, hypothetical situations, and worksheets designed to facilitate your understanding of and role in the profession. All material presented is consistent with both the CACREP accreditation standards and the American School Counseling Association's National Model. **Homelessness in America** Kathleen Swenson Miller, Georgiana L.
