Robin S Gotler Book:

The Wonder and the Mystery Robin Gotler, 2022-02-16 Published in association with the Annals of Family Medicine
The Wonder and the Mystery is an anthology of intimate personal stories and innovative ideas from the Annals Reflections section. It includes a wide range of articles from influential pieces on urgent topical issues to exceptional stories of unique individuals. These articles shed light on small moments and major life transitions. In the process, they help us find meaning in our own physical, emotional, and spiritual journeys. The one-of-a-kind stories and ideas in the book speak to all of us who are interested in health care and health caring and connection: clinicians, patients, family members, researchers, policy makers, and more. The book reminds us that the things we cannot measure may be the very things that will sustain us. LIFE Jeremy Swartz, Janet Wasko, 2023-12-29 *LIFE A Transdisciplinary Inquiry* examines nature, cognition, and society as an interwoven tapestry across disciplinary boundaries. This volume explores how information and communication are instrumental in and for living systems, acknowledging an integrative account of media, environments, and technologies. The aim of the collection is a fuller and richer account of everyday life through a spectrum of insights from internationally known scholars of the natural sciences, physical and life sciences, social sciences, and the arts. How or should life be defined? If life is a medium, how is it mediated? Viewed as interactions, transactions, and contexts of ecosystems, life can be recognized through patterns across the sciences, including metabolisms, habitats, and lifeworlds. The book also integrates discussions of embodiment, ecological values, literacies, and critiques with bioinspired, synthetic, and historical design approaches to envision what could constitute artful living in an ever-evolving interdependent world. The volume foregrounds systemic approaches to life, drawing on a wide range of disciplines and fields, including architecture, art, biology, bioengineering, chemistry, cinema studies, communication, computer science, conservation, cultural studies, design, ecology, environmental studies, information science, landscape architecture, geography, journalism, materials science, media archaeology, media studies, philosophy, physics, plant signalling, and development, political economy, sociology, and system dynamics. This is the second volume in the *MEDIA LIFE UNIVERSE* Trilogy. It follows and builds upon the 2021 collection *MEDIA A Transdisciplinary Inquiry*.
