*Perspectives on Northern Englishes* Sylvie Hancil, Joan C. Beal, 2017-07-10 Northern English has been the object of much attention linguistically over the last thirty years but scholars have had a tendency to focus on the phonology of the dialects and varieties encountered. The purpose of the present volume is to complement and enrich the existing studies by providing readers with a kaleidoscopic perspective allowing for a holistic interpretation and understanding of Northern English. It includes studies not only on phonology but also on semantics, syntax and sociolinguistics from a synchronic and diachronic point of view with a special emphasis on the process of enregisterment. The varieties covered include Scottish Standard English, Shetland and Northern Ireland as well as varieties from the North of England. **Edited by Roland** Roland Corporation,
