Perone,2017-11-10 A valuable resource for James Taylor fans and a fascinating read for anyone interested in autobiographical popular music of the past 50 years What kinds of unusual musical forms and lyrical structures did American singer songwriter James Taylor incorporate into his songs What role did Taylor play in the introspective singer songwriter movement of the 1970s How did Taylor write and record songs that were inspired from his own experiences in life that touched so many other people The Words and Music of James Taylor explores these specific topics and provides detailed critical analysis of the songs and recordings of this well known musical icon examining his melodic writing his use of harmony and his often unappreciated tailoring of musical form to enhance his lyrical messages The book is organized chronologically primarily around Taylor s studio albums from 1968 to 2015 and offers an introduction a summary of Taylor s career and importance as well as an annotated bibliography and discography The final section of the book presents an overview of Taylor s importance and lasting impact an analysis of themes that run through his songs and an explanation of how Taylor s treatment of these themes changed over the years as he matured and as the world around him changed [Beastie Boys](#) , **Ray Charles** , [Popular Music](#) Roy Shuker,2005 With Key Concepts in Popular Music Roy Shuker presents a comprehensive A Z glossary of the main terms and concepts used in the study of popular music **What Would Keith Richards Do?** Jessica Pallington West,2010-07-23 What is a wiseman What is a prophet Someone with a strange unflappable demeanor Someone who speaks in cryptic koans words whose meanings take years to unravel Someone who has confronted death God sin and the immortal soul Someone unfit for this world but too brilliant to depart it Someone in short like Keith Richards Here at last the wisdom of this indefatigable man is recorded and set forth These are his visionary words I would rather be a legend than a dead legend Or Whatever side I take I know well that I will be blamed And indeed I ve never had a problem with drugs only with policemen Not merely a compendium of wisdom this book is also a complete guide to the inner workings of a complex and inspired belief system and the life of a man sanctified by fame What Would Keith Richards Do reminds us to learn from our mistakes let our instincts lead us and above all do what Keith has done better than anyone survive **Listen to the Blues!** James E. Perone,2019-02-15 Listen to the Blues Exploring A Musical Genre provides an overview of this distinctly American musical genre for fans of the blues and curious readers alike with a

focus on 50 must hear artists albums and subgenres Unlike other books on the blues which tend to focus on musician biographies Listen to the Blues devotes time to the compositions recordings and musical legacies of blues musicians from the early 20th century to the present Although the author references musical structure harmony form and other musical concepts the volume avoids technical language therefore it is a volume that should be of interest to the casual blues fan to students of blues music and its history and to more serious blues fans The chapters on the impact of the blues on popular culture and the legacy of the blues also put the genre in a broader historical context than what is found in many books on the blues The book opens with a background chapter that provides an overview of the history and structure of blues music A substantial encyclopedic chapter that focuses on 50 must hear blues musicians follows as does a chapter that explores the impact on popular culture of blues music and musicians and a chapter that focuses on the legacy of the genre A bibliography rounds out the work
