Shakespeare's Spiral François-Xavier P. Gleyzon, 2010-03-19 Shakespeare's Spiral aims to explore a figure forgotten in the dramatic texts of Shakespeare and in Renaissance painting the snail Taking as its point of departure the emergence of the gastropod object subject in the text of King Lear as well as its iconic interface in Giovanni Bellini's painting Allegory of Falsehood circa 1490 this study sets out to follow the particular path traced by the snail throughout the uvre From the central scene in which the metaphor of the snail and of its shell is specifically made manifest when Lear discovers in a raging storm the spectacle of Edgar disguised as Poor Tom coming out of his shelter III 3 6 9 to the monster this fiend displaying on the cliffs of Dover horns whelked and waved like the enridg d sea IV 6 71 this work is the trace of a narrative of a journey of the gaze during the course of which the cryptic question of the gastropod Why a Snail I 5 26 does not cease to be developed and transformed Incorporating a wide ranging post structuralist critique the study aims to bring to light the particular functions of this revealing detail in both its textual and visual dimension so as to put forward a new and innovative understanding of the tragedy of King Lear
