In addition, Katchen offers a detailed account of the IAAFC's evolution including its close ties to the Tammany Hall political machine and sheds light on the rapid modernization of the sport and the ways it provided a vehicle for the assimilation of working class immigrant athletes. Finally, Katchen explores the social origins of the ideology of amateurism and its devastating impact on Kiviat's career. Kiviat died at ninety-nine just months short of carrying the torch for the opening ceremonies of the Barcelona Olympics. Abel Kiviat National Champion pays tribute to a remarkable athlete and the sport during its most dynamic and celebrated era.

Life Inc Douglas Rushkoff, 2011-01-04. Now includes *The Life Inc Guide to Reclaiming the Value You Create*. In *Life Inc*, award-winning writer Douglas Rushkoff traces how corporations went from being convenient legal fictions to being the dominant fact of contemporary life. The resulting ideology, corporatism, has infiltrated all aspects of civics, commerce, and culture, from the founding of the first chartered monopoly to the branding of the self, from the invention of central currency to the privatization of banking, from the Victorian Great Exhibition to the solipsism of Facebook. *Life Inc* explains why we see our homes as investments rather than places to live, our 401(k) plans as the ultimate measure of success, and the Internet as just another place to do business. Most important, Rushkoff illuminates both how we've become disconnected from our world and how we can reconnect to our towns, to the value we can create, and mostly to one another. As the speculative economy collapses under its own weight, *Life Inc* shows us how to build a real and human-scaled society to take its place.

**The Pedagogical Imagination** Leon Sachs, 2014-05-01. French school debates of recent years, which are simultaneously debates about the French Republic's identity and values, have generated a spate of internationally successful literature and film on the topic of education. While mainstream media and scholarly essays tend to treat these works as faithful representations of classroom reality, *The Pedagogical Imagination* takes a different approach. In this study of French education and republicanism as represented in twenty-first century French literature and film, Leon Sachs shifts our attention from what literature and film say about education to how they say it. He argues that the most important literary and filmic treatments of French education in recent years—the works of Agnès Varda, Rik Orsenna, Abdellatif Kechiche, François Billaudot—do more than merely depict the present-day school crisis. They explore questions of education

through experiments with form *The Pedagogical Imagination* shows how such techniques engage present day readers and viewers in acts of interpretation that reproduce pedagogical principles of active experiential learning principles at the core of late nineteenth century educational reform that became vehicles for the diffusion of republican ideology
