who was already making a name for himself as the world's first consulting detective. At that time the young man and his unique colleague were only just in their late twenties, unaware of their legendary futures, but they would go on to become two of the most famous and recognizable figures in the world. Sherlock Holmes and Dr John H. Watson. In 1887 Holmes and Watson's first investigation as a team, *A Study in Scarlet*, was published. *The Sign of Four* followed in 1890, and then in 1891 the world was electrified with the publication of *The Adventures of Sherlock Holmes* in the newly formed Strand Magazine, and the world would never be the same. Through the remainder of the nineteenth century and all the way through the twentieth, Holmes and Watson's fame would grow. We're now well into the twenty-first century, yet the much-loved duo are just as popular today, if not even more so. In 2015 *The MX Book of New Sherlock Holmes Stories* burst upon the scene, featuring stories set within the canon's correct time period, written by the very best of today's Sherlockian authors from around the world. That first anthology spread over three huge volumes, contained sixty-three stories, and was the largest collection of its kind assembled at the time. Response was immediately and overwhelmingly positive, and soon there were calls from fans for additional collections. Over 150 contributors so far have joined together from around the world to produce well over three hundred new adventures to honour Sherlock Holmes, the man described by Watson as the best and wisest whom I have ever known. We now proudly present Parts XIII, XIV, and XV, three volumes which break the record of the initial triple offering with an incredible sixty-six new adventures featuring the eternal duo, Watson and Holmes. Part XIV in the popular MX series of new Sherlock Holmes stories features contributions from Charles Veley and Anna Elliott, Mark Sohn, David Marcum, S. Subramanian, Roger Riccard, Marcia Wilson, Tracy J. Revels, Arthur Hall, G.C. Rosenquist, Edwin A. Enstrom, Jayantika Ganguly, C.H. Dye, Matthew Booth, Stephen Herczeg, Geri Schear, Liz Hedgecock, Carl Heifetz, Gayle Lange, Puhl, Harry DeMaio, I.A. Watson, and Thomas A. Burns Jr, with forewords from David Marcum, Will Thomas, Roger Johnson, Steve Emecz, Melissa Grigsby, and a poem by Jacquelyn Morris.

The African Mobile Story Knud Erik Skouby, Williams Idongesit, 2022-09-01. Africa, and especially Sub-Saharan Africa, has during the past decade witnessed one of the fastest growing markets in mobile communication. This growth is recognized to have played a pivotal role in Africa's socio-economic development. It has had a huge impact on residential living patterns, on business networks and models, and on government services and income sources. The mobile industry has contributed more to economic growth than in any other comparable region globally, introducing innovative, broadly used applications. Technical topics discussed in the book include: Mobile Development in Sub-Saharan Africa, Telecom Liberalization in Africa, Role of Mobile in Socio-economic Development, Mobile Applications in specific sectors, Security in African Mobile, Role of Prepaid in Africa.

Winning by Sharing Léon Benjamin, 2005. **Ten Years to Midnight** Blair H. Sheppard, 2020-08-04. Shows how humans have brought us to the brink and how humanity can find solutions. I urge people to read with humility and the daring to act. Harpal Singh, former Chair, Save the Children India, and former Vice Chair, Save the Children International. In conversations with people all over the world, from government officials

and business leaders to taxi drivers and schoolteachers Blair Sheppard global leader for strategy and leadership at PwC discovered they all had surprisingly similar concerns In this prescient and pragmatic book he and his team sum up these concerns in what they call the ADAPT framework Asymmetry of wealth Disruption wrought by the unexpected and often problematic consequences of technology Age disparities stresses caused by very young or very old populations in developed and emerging countries Polarization as a symptom of the breakdown in global and national consensus and loss of Trust in the institutions that underpin and stabilize society These concerns are in turn precipitating four crises a crisis of prosperity a crisis of technology a crisis of institutional legitimacy and a crisis of leadership Sheppard and his team analyze the complex roots of these crises but they also offer solutions albeit often seemingly counterintuitive ones For example in an era of globalization we need to place a much greater emphasis on developing self sustaining local economies And as technology permeates our lives we need computer scientists and engineers conversant with sociology and psychology and poets who can code The authors argue persuasively that we have only a decade to make headway on these problems But if we tackle them now thoughtfully imaginatively creatively and energetically in ten years we could be looking at a dawn instead of darkness
