Neighbors And More English Edition:

The Neighbor Slavoj Žižek, Eric L. Santner, Kenneth Reinhard, 2013-07-12 In Civilization and Its Discontents Freud made abundantly clear what he thought about the biblical injunction first articulated in Leviticus 19 18 and then elaborated in Christian teachings to love one's neighbor as oneself Let us adopt a naive attitude towards it he proposed as though we were hearing it for the first time we shall be unable then to suppress a feeling of surprise and bewilderment After the horrors of World War II the Holocaust and Stalinism Leviticus 19 18 seems even less conceivable but all the more urgent now than Freud imagined In *The Neighbor* three of the most significant intellectuals working in psychoanalysis and critical theory collaborate to show how this problem of neighbor love opens questions that are fundamental to ethical inquiry and that suggest a new theological configuration of political theory Their three extended essays explore today's central historical problem the persistence of the theological in the political In *Toward a Political Theology of the Neighbor* Kenneth Reinhard supplements Carl Schmitt's political theology of the enemy and friend with a political theology of the neighbor based in psychoanalysis In *Miracles Happen* Eric L. Santner extends the book's exploration of neighbor love through a bracing reassessment of Benjamin and Rosenzweig And in an impassioned plea for ethical violence Slavoj Žižek's *Neighbors and Other Monsters* reconsiders the idea of excess to rehabilitate a positive sense of the inhuman and challenge the influence of Levinas on contemporary ethical thought A rich and suggestive account of the interplay between love and hate self and other personal and political *The Neighbor* has proven to be a touchstone across the humanities and a crucial text for understanding the persistence of political theology in secular modernity This new edition contains a new preface by the authors *English Syntax, second edition* C. Who is My Neighbor? Thomas D. Williams, 2005-03 Over the past half century the language of human rights has gained such dominance in moral civic and ecclesiastical discourse that ethical and social questions are increasingly framed in terms of rights Yet the vast literature dealing with human and civil rights focuses almost exclusively on the juridical and practical ramifications of rights rather than the philosophical moral and foundational aspects As a result the proliferation of rights claims and catalogs has not been accompanied by a reasoned case for the existence of human rights or rational criteria for distinguishing true moral entitlement from spurious claims Who Is My Neighbor makes an original compelling case for human rights as moral entitlements grounded in the dignity of the human person Drawing upon insights of Thomistic Personalism Thomas D. Williams sets forth in clear vigorous prose the anthropological philosophical and theological bases for asserting that the human person must always be loved as an end and never used as a mere means Williams grants ample space to critics of rights theory and systematically answers their arguments by showing how rightly understood human rights dovetail with classical ethical theory and traditional formulations of justice and natural law Williams suggests that rights language not only does no violence to classical ethics but serves to highlight certain fundamental truths about the human person essential to right human relations

Unequal Neighbors Kristen Hill Maher, David Carruthers, 2021-04-02 San Diego and Tijuana are the site of a national border enforcement spectacle but they are also neighboring cities with deeply intertwined histories cultures and economies In *Unequal Neighbors* Kristen Hill Maher and David Carruthers shift attention from the national border to a local one examining the role of place stigma in reinforcing actual and imagined inequalities between these cities While the details of the book are particular to this corner of the world the kinds of processes it documents offer a window into the making of unequal neighbors more broadly The dynamics at the Tijuana border present a framework for understanding how inequalities that manifest in cultural practices produce asymmetric borders between places
