Putting People Back in Politics Edward Schneider, 2019-12-26 Since 2016 millions of Americans have demonstrated organized and contributed in the cause of political change Some have been effective most are wasting their time While there are few clear rules of political efficacy there are techniques of campaigning agitating and lobbying that manifestly work better than others Making the works of scholars and practitioners accessible to activists what I have tried to show is how real reform is possible when we put ordinary people back into politics More than a book of how to do it it shows why a new politics of interpersonal engagement can help renew our democratic system Schneider s books are always sophisticated and readable appealing not only to undergraduate students but also to activists and people with a general interest in politics Here he smoothly blends the insights of academics with those of campaign professionals and politicians Putting People Back in Politics is must reading for people concerned that the long term future of American democracy may be determined by the 2020 election and who want to do something about it Ken Sherrill Professor Emeritus of Political Science Hunter College How can we put everyday people at the center of our politics Ned Schneider not only tells us how but why it is crucial to counter big money to reform an increasingly dysfunctional political system From simple but meaningful conversations with neighbors to effective get out the vote efforts to mass mobilizations Schneider packs a

A ^AFeminist in the White House Doreen J. Mattingly, 2016-04-29 Midge Costanza was one of the unlikeliest of White House insiders But for a time during the seventies this loud mouthed pushy little broad with no college education was a prominent focal point of the American culture wars In this book Doreen J Mattingly draws on Costanza s life to tell a wider but heretofore neglected story of the hopeful yet fraught era of gender politics in late 70s Washington a history that is not just important to US women s and presidential history but which continues to resonate in politics today

Reproductive Rights in New York and New Jersey Jonathan F. Parent, 2018-04-17 New York and New Jersey maintain almost identical laws dealing with abortion but the process for developing those laws differed in each state Courts were heavily involved in New Jersey whereas most policy decisions came from elected officials in New York In this book Parent argues that these differences in the location of policy development in the two states are attributable to early changes that took place either in the courts or the state houses These early changes set the narrative frame for how abortion was conceptualized in New York and New Jersey respectively helping to lock in a legal or political outlook that kept development of abortion law and policy within its originating institution Using the words of judges and justices from state and federal courts as well as lawmakers in the two states over a forty year period Parent demonstrates that how policy makers thought and wrote about abortion had a critically important impact on the extent to which courts or elected officials would ultimately create the laws that limited or expanded access to reproductive rights

The Politics of Imprisonment Vanessa Barker, 2009-08-26 The attention devoted to the unprecedented levels of imprisonment in the United States obscure an obvious but understudied aspect of criminal justice there is no consistent punishment policy across the U S It is up to individual states to administer their criminal justice systems and the differences among them are vast For example while some states enforce mandatory minimum sentencing some even implementing harsh and degrading practices others rely on community sanctions What accounts for these differences *The Politics of Imprisonment* seeks to document and explain variation in American penal sanctioning drawing out the larger lessons for America s overreliance on imprisonment Grounding her study in a comparison of how California Washington and New York each developed distinctive penal regimes in the late 1960s and early 1970s a critical period in the history of crime control policy and a time of unsettling social change Vanessa Barker concretely demonstrates that subtle but crucial differences in political institutions democratic traditions and social trust shape the way American states punish offenders Barker argues that the apparent link between public participation punitiveness and harsh justice is not universal but dependent upon the varying institutional contexts and patterns of civic engagement within the U S and across liberal democracies A bracing examination of the relationship between punishment and democracy *The Politics of Imprisonment* not

only suggests that increased public participation in the political process can support and sustain less coercive penal regimes but also warns that it is precisely a lack of civic engagement that may underpin mass incarceration in the United States
