Poe End Of Course Notes:

The Final Days of Edgar Allan Poe David F. Gaylin, 2024-04-18 Occurring in a time of primitive medicine and inconsistent record keeping Poe's death has become one of the enduring mysteries of American literature David F. Gaylin's book marks the first attempt to offer a comprehensive and balanced study of this historical event After chronicling the circumstances that may have contributed to the poet's death the book examines key details about the story It traces Poe's movements and personal encounters before also exploring how Poe was handled and treated by others who attempted to come to his aid Proceeding with the liveliness of a detective story the discussion sheds new light on these events and it offers new information about the burial of Poe's body and the subsequent relocations of his tomb With the addition of supplementary reference materials including a register of formally proposed causes of death a timeline of relevant events and a map of Poe's final movements in Baltimore this book is an essential resource for both scholars and general readers seeking answers to the mystery of Poe's death

Race and Utopian Desire in American Literature and Society Patricia Ventura, Edward K. Chan, 2019-10-12 Bringing together a variety of scholarly voices this book argues for the necessity of understanding the important role literature plays in crystallizing the ideologies of the oppressed while exploring the necessarily racialized character of utopian thought in American culture and society Utopia in everyday usage designates an idealized fantasy place but within the interdisciplinary field of utopian studies the term often describes the worldviews of non dominant groups when they challenge the ruling order In a time when white supremacy is reasserting itself in the US and around the world there is a growing need to understand the vital relationship between race and utopia as a resource for resistance Utopian literature opens up that relationship by envisioning and negotiating the prospect of a better future while acknowledging the brutal past The collection fills a critical gap in both literary studies which has largely ignored the issue of race and utopia and utopian studies which has said too little about race

Notes for a Decolonial Political Theology Silvana Rabinovich, 2023-12-29 At the crossroads of ethics poetics and politics this innovative book outlines a series of notes to decolonize political theology The author proposes counter hegemonic forms of reading which deconstruct domination by embracing fragility The book opens with a diapason of prejudicelessness as a decolonial key focusing on prejudices that hinder critical attention to a colonial political theology that perpetuates hatred The first set of notes aims to deorientalize the Semite by reading midrashic and biblical texts in the present context the second seeks to decolonize language by exploring the power of translation and the third ponders decolonial theologies to outline a justice of the other Connecting a number of fields authors and epistemologies the book addresses the Israeli Palestinian conflict and brings together Jewish thought continental philosophy and Latin American perspectives It engages with a range of thinkers including Benjamin and Arendt and features an interview with Enrique Dussel as well as a foreword by Gil Anidjar This is an important methodological proposal for interdisciplinary and intercultural political theology and a valuable contribution towards

rethinking the paradigm of political theology beyond its Eurocentric and colonialist premises [Madison Hall Notes](#) ,1911

Note upon Ecstasy in Literature Arthur Machen, 2018-11-22 First published in 1902 Hieroglyphics A Note upon Ecstasy in Literature is an analysis of the nature of literature by Welsh author Arthur Machan Within it Machan concludes that to be true literature the work must contain or convey a sense of ecstasy This fascinating volume will appeal to both writers and readers with an interest in Machan s seminal work and it would make for a worthy addition to collections of allied literature Arthur Machen 1863 1947 was a Welsh author and renowned mystic during the 1890s and early 20th century who garnered literary acclaim for his contributions to the supernatural horror and fantasy fiction genres His seminal novella The Great God Pan 1890 has become a classic of horror fiction with Stephen King describing it as one of the best horror stories ever written in the English language Other notable fans of his gruesome tales include William Butler Yeats and Arthur Conan Doyle and his work has been compared to that of Robert Louis Stevenson Bram Stoker and Oscar Wilde Many vintage books such as this are increasingly scarce and expensive It is with this in mind that we are republishing this volume now in an affordable modern high quality edition complete with a specially commissioned new biography of the author [University of Virginia Magazine](#) ,1902

Play It Again, Sam Samuel Jay Keyser, 2025-05-27 Why we enjoy works of art and how repetition plays a central part in the pleasure we receive Leonard Bernstein in his famous Norton Lectures extolled repetition saying that it gave poetry its musical qualities and that music theorists refusal to take it seriously did so at their peril Play It Again Sam takes Bernstein seriously In this book Samuel Jay Keyser explores in detail the way repetition works in poetry music and

painting He argues for example that the same cognitive function underlies both how poets write rhyme in metrical verse and the way songwriters like Duke Ellington and Billy Strayhorn Satin Doll and Richard Rodgers and Lorenz Hart My Funny Valentine construct their iconic melodies Furthermore the repetition found in these tunes can also be found in such classical compositions as Mozart's Rondo alla Turca and his German Dances as well as in galant music in general The author also looks at repetition in paintings like Gustave Caillebotte's Rainy Day in Paris Andy Warhol's Campbell's Soup Cans and Jackson Pollock's drip paintings Finally the photography of Lee Friedlander Roni Horn and Osmond Giglia Giglia's Girls in the Windows is one of the highest grossing photographs in history are all shown to be built on repetition in the form of visual rhyme The book ends with a cognitive conjecture on why repetition has been so prominent in the arts from the Homeric epics through Duke Ellington and beyond Artists have exploited repetition throughout the ages The reason why is straightforward the brain finds the detection of repetition innately pleasurable Play It Again Sam offers experimental evidence to support this claim
