this lush epic story of a woman who follows her love to Paris only to find herself marooned pregnant and penniless Set around France s Second Empire where absinth prostitution vast wealth and cataclysmic social upheaval abound this novel delicately explores the contrary requirements of a woman s survival Capitalism by Gaslight Brian P. Luskey, Wendy A. Woloson, 2015-02-02 While elite merchants financiers shopkeepers and customers were the most visible producers consumers and distributors of goods and capital in the nineteenth century they were certainly not alone in shaping the economy Lurking in the shadows of capitalism s past are those who made markets by navigating a range of new financial instruments information systems and modes of transactions prostitutes dealers in used goods mock auctioneers illegal slavers traffickers in stolen horses emigrant runners pilfering dock workers and other ordinary people who through their transactions and lives helped to make capitalism as much as it made them Capitalism by Gaslight illuminates American economic history by emphasizing the significance of these markets and the cultural debates they provoked These essays reveal that the rules of economic engagement were still being established in the nineteenth century delineations between legal and illegal moral and immoral acceptable and unsuitable were far from clear The contributors examine the fluid mobility and unstable value of people and goods the shifting geographies and structures of commercial institutions the blurred boundaries between legitimate and illegitimate economic activity and the daily lives of men and women who participated creatively and often subversively in American commerce With subjects ranging from women s studies and African American history to material and consumer culture this compelling volume illustrates that when hidden forms of commerce are brought to light they can become flashpoints revealing the tensions fissures and inequities inherent in capitalism itself Contributors Paul Erickson Robert J Gamble Ellen Gruber Garvey Corey Goetsch Joshua R Greenberg Katie M Hemphill Craig B Hollander Brian P Luskey Will B Mackintosh Adam Mendelsohn Brendan P O Malley Michael D Thompson Wendy A Woloson *Working on the Dock of the Bay* Michael D. Thompson, 2015-04-15 An examination of the role and struggles of dockworkers enslaved and free in Charleston between the American Revolution and the Civil War Working on the Dock of the Bay explores the history of waterfront labor and laborers black and white enslaved and free native and immigrant in Charleston South Carolina between the American Revolution and Civil War Michael D Thompson explains how a predominantly enslaved workforce laid the groundwork for the creation of a robust and effectual association of dockworkers most of whom were black shortly after emancipation In revealing these wharf laborers experiences Thompson s book contextualizes the struggles of contemporary southern working people Like their postbellum and present day counterparts stevedores and draymen laboring on the wharves and levees of antebellum cities whether in Charleston or New Orleans New York or Boston or elsewhere in the Atlantic World were indispensable to the flow of commodities into and out of these ports Despite their large numbers and the key role that waterfront workers played in these cities premechanized labor intensive commercial economies too little is known about who these laborers were and the work they performed Though scholars have explored the history of

dockworkers in ports throughout the world they have given little attention to waterfront laborers and dock work in the pre Civil War American South or in any slave society Aiming to remedy that deficiency Thompson examines the complicated dynamics of race class and labor relations through the street level experiences and perspectives of workingmen and sometimes workingwomen Using this workers eye view of crucial events and developments Working on the Dock of the Bay relocates waterfront workers and their activities from the margins of the past to the center of a new narrative reframing their role from observers to critical actors in nineteenth century American history Organized topically this study is rooted in primary source evidence including census tax court and death records city directories and ordinances state statutes wills account books newspapers diaries letters and medical journals
