The Blood of Government Paul A. Kramer, 2006-12-13 In 1899 the United States having announced its arrival as a world power during the Spanish Cuban American War inaugurated a brutal war of imperial conquest against the Philippine Republic Over the next five decades U S imperialists justified their colonial empire by crafting novel racial ideologies adapted to new realities of collaboration and anticolonial resistance In this pathbreaking transnational study Paul A Kramer reveals how racial politics served U S empire and how empire building in turn transformed ideas of race and nation in both the United States and the Philippines Kramer argues that Philippine American colonial history was characterized by struggles over sovereignty and recognition In the wake of a racial exterminist war U S colonialists in dialogue with Filipino elites divided the Philippine population into civilized Christians and savage animists and Muslims The former were subjected to a calibrated colonialism that gradually extended them self government as they demonstrated their capacities The latter were governed first by Americans then by Christian Filipinos who had proven themselves worthy of shouldering the white man s burden Ultimately however this racial vision of imperial nation building collided with U S nativist efforts to insulate the United States from its colonies even at the cost of Philippine independence Kramer provides an innovative account of the global transformations of race and the centrality of empire to twentieth century U S and Philippine histories
