The Art of God Jimi Calhoun, 2015-04-07 In *The Art of God* pastor and musician Jimi Calhoun suggests that the master artist God programmed diversity into every aspect of the natural order. Today more of us than ever live in closer proximity to people once viewed as different. The multicultural conversation of the recent past has proven to be inadequate to address the present intercultural reality in which we live. The question then becomes how will we live together. Quite often the presence of difference results in the avoidance of the other. Many accept this as simply a natural occurrence but in the world of art difference does not always trigger division. Art encompasses multiple disciplines and forms. Art welcomes diversity within its borders. This book traces the evolution of art and music then extracts principles from a musical motif to encourage the development of an artistic worldview that recognizes the beauty residing in everything and everybody.
