Aristotle once said, "Happiness depends upon ourselves". This quote means that you are the only one who can determine your future. This is proven true through many works of literature, including The House on Mango Street by Sandra Cisneros and The Absolutely True Diary of a Part-Time Indian by Sherman Alexie. Both authors use characterization to show that you can make a bad situation in your life better if you make the right choices.

In The House on Mango Street, Sandra Cisneros shows how you are in control of creating positive outcomes in your future. This book is about a girl named Esperanza and her quest to find happiness. One example is when Esperanza alters her future by not following the fate of other women in her town. She mentioned that she inherited her grandmother's name, but she did not want to inherit her place by the window. Esperanza's grandmother was not allowed to leave the house and live her own life. Her "job" was to stay home while her husband went out each day. Another example is when Esperanza set goals or dreams for herself. She knew that one day she wanted a home of her own. Throughout the book, Esperanza made sure that she never lost sight of this dream. Eventually, Esperanza achieves her dream and created more happiness for her future. Sandra Cisneros uses characterization to demonstrate that Esperanza was determined, motivated and independent. She is the only one who could fully determine the path that lead to happiness in her future. She had to set goals and break the pattern of how every other woman she knew lived in order to create a better life for herself.

Another piece of literature that proves you are the only person who can determine your future is The Absolutely True Diary of a Part-Time Indian by Sherman Alexie. This book is about a teenage boy named Junior who was born with water on his brain. Junior has to overcome many obstacles and make several life-changing decisions in order to improve the outcome of his future. One example that demonstrates that you are the only one who can turn your life around for the better is when Junior decides to leave the Indian Reservation and go to a public school away from his family. It was not easy for Junior to break the tradition of every other member of his family, but he knew

**Critical Encounters in Secondary English** Deborah Appleman, 2023-12-22 Grounded in solid theory with new field tested classroom activities the fourth edition of Critical

Encounters in Secondary English continues to help teachers integrate the lenses of contemporary literary theory into practices that have always defined good pedagogy. The most significant change for this edition is the addition of Critical Race Theory (CRT) as an analytical lens. CRT offers teachers fresh opportunities for interdisciplinary planning and teaching as it lends itself to lessons that encompass a variety of disciplines such as history, sociology, psychology, and science. As with the previous edition, each chapter concludes with a list of suggested nonfiction pieces that work well for the particular lens under discussion. This popular text provides a comprehensive approach to incorporating nonfiction and informational texts into the literature classroom with new and revised classroom activities appropriate for today's students.

**Book Features:** Helps both pre and inservice ELA teachers introduce contemporary literary theory into their classrooms. Offers lucid and accessible explications of contemporary literary theory. Provides dozens of innovative and field-tested classroom activities. Tackles the thorny issue of Critical Race Theory in helpful and practical ways.

**Praise for the Third Edition:** What a smart and useful book! It provides teachers with a wealth of knowledge and material to help their students develop critical perspective and suppleness of thought. *Mike Rose, University of California, Los Angeles.* This Third Edition proves that Appleman still has her hand on the pulse of the rapidly changing landscape of education. *Ernest Morrell, Teachers College, Columbia University.* This new edition of Deborah Appleman's now classic book demonstrates even more dramatically than previously how the critical theories she so skillfully teaches serve not only as lenses for the reading of literature but as tools for discovering, interrogating, and challenging injustice, hypocrisy, and the hidden power relations that students are likely to encounter. *Sheridan Blau, Teachers College, Columbia University.*
