Dahbour, 2024-12-23 In this book Omar Dahbour develops the idea of ecosystem sovereignty calling for a reinterpretation of some essential concepts in political philosophy including territoriality self determination peoplehood and sovereignty in order to make the case for peoples rights to protect and maintain their natural environments In doing so he theorizes current and historical struggles against resource extractions and land grabs especially by food sovereignty and indigenous rights movements The basic idea of ecosovereignty is that peoples living in relation to particular ecosystems have a collective right to ultimate authority over those systems and the resources they contain provided they manage them sustainably Dahbour

argues that this authority has a legitimacy that overrides that of larger states at least with regard to matters of environmental management Ecosovereignty claims may strengthen challenges by peoples to states and corporations seeking to control and transform lands and waters for development against the wishes of their inhabitants Dahbour hopes the idea will provide a powerful tool for halting extractivism and ecocide along with the extreme violence that these processes use against farming indigenous peoples and nature Connecting political and environmental philosophy in an innovative way Ecosovereignty A Political Principle for the Environmental Crisis will keep scholars and students informed about an increasingly important topic

The Secularization of Baptism Mark G. McKim, 2025-01-31 Does God actually do anything in baptism Is it more than just a symbol Most early Baptists would have answered yes Most Baptists today would answer no How and why did this change happen and does it matter Providing thorough documentation of the changing understandings of baptism among American Canadian and English Baptists from the 1600s to the present day The Secularization of Baptism demonstrates that four factors led to the symbolic only position becoming dominant These were suspicion in reaction to Roman Catholicism of the idea of God revealing himself through the physical the influence of the Enlightenment and embarrassment with claims that God could be acting in the world today reaction against the Oxford Movement and reaction against the understanding of baptism advocated by the Disciples of Christ Campbellites The now dominant symbolic only position so focuses attention on what the believer is doing in baptism that God is seen as largely absent from and doing nothing through the rite in effect believers baptism has been secularized A carefully reasoned biblical and theological argument is made for a return to the Regular Particular Baptist view that God is both profoundly spiritually present and active in baptism while at the same time rejecting the sacramentalist position advocated by a small number of mid twentieth and twenty first century Baptists such as H Wheeler Robinson George Beasley Murray Stanley K Fowler and Anthony R Cross
