Visual Writing Alex Baratta, 2010-07-12 Considering the fact that the academic essay continues to be widely used as an assessment tool within education there is a need for students to develop their skills in this area However it is often the case that students perceive instruction in academic writing if it is offered at all as boring This book addresses these two issues First the book can be used by students themselves even in the absence of academic writing classes as a self help guide from which they can develop their knowledge of academic writing and subsequent proficiency Second by discussing the components of academic writing in terms such as film which are familiar to today s generation students are enabled to relate to the material better and see what might have been perceived as dull from a brand new perspective Visual learners in particular will enjoy the analogous link between films and essays and students today are arguably more visually literate than previous generations being exposed to visuals on a daily basis through text message iconography computer games and the Internet The visual instruction provided in turn helps to facilitate mental visuals in students minds from which their knowledge of essay writing can start to develop

Author Under Sail James Williams, 2021-02 In *Author Under Sail* The Imagination of Jack London 1902-1907 Jay Williams explores Jack London's necessity to illustrate the inner workings of his vast imagination In this second installment of a three volume biography Williams captures the life of a great writer expressed through his many creative works such as *The Call of the Wild* and *White Fang* as well as his first autobiographical memoir *The Road* some of his most significant contributions to the socialist cause and notable uncompleted works During this time London became one of the most famous authors in America perhaps even the author with the highest earnings as he prepared to become an equally famous international writer *Author Under Sail* documents London's life in both a biographical and writerly fashion depicting the importance of his writing experiences as his career followed a trajectory similar to America's from 1876 to 1916 The underground forces of London's narratives were shaped by a changing capitalist society media outlets racial issues increases in women's rights and advancements in national power Williams factors in these

elements while exploring London's deeply conflicted relationship with his own authorial inner life. In London's work the imagination is figured as a ghost or as a ghostlike presence and the author's personas who form a dense population among his characters are portrayed as haunted or troubled in some way. Along with examining the functions and works of London's exhaustive imagination, Williams takes a critical look at London's ability to tell his stories to wide arrays of audiences, stitching incidents together into coherent wholes so they became part of a raconteur's repertoire. *Author Under Sail* provides a multidimensional examination of the life of a crucial American storyteller and essayist. *IU Newspaper*, 1988

Children and the Media Everett E. Dennis, 2017-09-08 Throughout history the media has primarily been produced by adults for adults about adults. Increasingly, children have become a matter of high priority in the modern media society and as they have, they have also become the subject of much concern. From debates in Congress about the detrimental effects of movies, comic books, and video games over the last century to efforts to court children as media consumers, there is a clear recognition that the media are not now and probably never were purely adult fare. Their impact on children is at issue.

For use with Grades 3-6. Reading the Newspaper Margery S. Miller, Karen K. Allen, 1989 Promotes secondary students' critical thinking skills while reinforcing skills needed to read the newspaper effectively. **Community Newspapers and the Japanese-American Incarceration Camps** Ronald Bishop, 2015-06-03 Though much has been said about Japanese American incarceration camps, little attention is paid to the community newspapers closest to the camps and how they constructed the identities and lives of the occupants inside. Dependent on government and military officials for information, these journalists rarely wrote about the violation of the evacuees' civil rights. Instead, they concentrated on the economic impact of the camps and the evacuees who would replace workers off to enlist in the military and work for defense contractors. Would they have on the areas they covered? Newspapers like the *Cody Enterprise* and *Powell Tribune* in Wyoming, the *Lamar Daily News*, and the *Casa Grande Dispatch* regularly published overly optimistic updates on the progress of construction, the size of the contractor payrolls, and the amount of materials used to build the camps. Ronald Bishop and his coauthors reveal how journalists positioned the incarceration camps as a potential economic boon and how evacuees were framed as another community group there to contribute to the region's economic well-being. *Community Newspapers and the Japanese American Incarceration Camps* examines the rhetoric and journalistic approach of the local papers and how they informed the communities just outside their walls. This book will appeal to scholars of history and journalism. MidLife Solo Beth Kaplan, 2024-02-14 These essays, moving, engaging, and deeply personal, explore the themes of family responsibility.
